THE NOVEMBER MEETING IN PASADENA

The six hundred eightieth meeting of the American Mathematical Society was held at the California Institute of Technology, Pasadena, California, on Saturday, November 21, 1970. There were 161 registrants at the meeting, including 128 members of the Society.

By invitation of the Committee to Select Hour Speakers for Far Western Sectional Meetings, there were two invited hour addresses at this meeting. Professor Tosio Kato of the University of California at Berkeley presented a lecture entitled *On the functional equation* $y'(x) = ay(\lambda x) + by(x)$. He was introduced by Professor Richard Arens. Professor D. S. Ornstein of Stanford University presented the second hour address. The title of his talk was *The isomorphism problem in ergodic theory*. Professor R. K. Getoor introduced Professor Ornstein at his lecture.

There were five sessions of contributed ten minute papers with Professors R. A. Dean, Lawrence Fearnley, T. J. McMinn, R. R. Phelps and D. W. Robinson presiding.
