Harvard University
Cambridge, MA 02138, U.S.A.

I. M. SINGER
Department of Mathematics 2-174
Massachusetts Institute of Technology
Cambridge, MA 02139, U.S.A.

The *Journal of Algebraic Geometry*, published quarterly by University Press, Inc., is devoted to the publication of research papers in algebraic geometry, singularity theory, and related subjects such as number theory, commutative algebra, projective geometry, complex geometry, and geometric topology.

Starting with the 2002 subscription, the *Journal of Algebraic Geometry* is available in both electronic and paper delivery. List price is US$426 for electronic + paper delivery, US$393 for electronic only; the price for individuals is US$176 for electronic + paper delivery, US$155 for electronic only. If ordering the paper version, add US$5 for delivery within the United States; US$12 for delivery outside the United States. Subscription renewals are subject to late fees. See `www.ams.org/journal-faq` for more information.

Subscriptions and orders should be addressed to the American Mathematical Society, P. O. Box 845904, Boston, MA 02284-5904 USA. Telephone 1-800-321-4267, Fax (401)-331-3842. All orders must be accompanied by payment, and checks should be made payable to the American Mathematical Society. General correspondence and changes of address should be sent to the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294 USA.

Instructions for submission of manuscripts are given on the inside back cover of this issue.

This journal is indexed in *Science Citation Index™–Expanded*, *ISI Alerting Services℠*, *CompuMath Citation Index®*, *Current Contents®/Physical, Chemical & Earth Sciences*.
ISSN 1056-3911 (print); ISSN 1534-7486 (online)
Printed in the United States of America.
♾ The paper used in this issue is acid-free and falls within the guidelines established to ensure permanence and durability.

INDEX

Birkar, Caucher, and Yifei Chen, *Images of manifolds with semi-ample anti-canonical divisor* 273
Boalch, Philip, and Robert Paluba, *Symmetric cubic surfaces and $\mathbf{G}_2$ character varieties* 607
Boucksom, Sébastien, Charles Favre, and Mattias Jonsson, *Singular semi-positive metrics in non-Archimedean geometry* 77
Brugallé, Erwan, and Hannah Markwig, *Deformation of tropical Hirzebruch surfaces and enumerative geometry* 633
Burgos Gil, José Ignacio, Atsushi Moriwaki, Patrice Philippon, and Martín Sombra, *Arithmetic positivity on toric varieties* 201
Calabrese, John, *On the crepant resolution conjecture for Donaldson-Thomas invariants* 1
Chen, Yifei, *See* Birkar, Caucher 273
Favre, Charles, *See* Boucksom, Sébastien 77
Gaitsgory, Dennis, *Functors given by kernels, adjunctions and duality* 461
Harari, David, and Tamás Szamuely, *Local-global questions for tori over p-adic function fields* 571
Huh, June, *Positivity of Chern classes of Schubert cells and varieties* 177
Huizenga, Jack, *Effective divisors on the Hilbert scheme of points in the plane and interpolation for stable bundles* 19
Illusie, Luc, and Weizhe Zheng, *Quotient stacks and equivariant étale cohomology algebras: Quillen's theory revisited* 289
Jonsson, Mattias, *See* Boucksom, Sébastien 77
Kollár, János, and Frédéric Mangolte, *Approximating curves on real rational surfaces* 549
Maddock, Zachary, *Regular del Pezzo surfaces with irregularity* 401
Mangolte, Frédéric, *See* Kollár, János 549
Markwig, Hannah, *See* Brugallé, Erwan 633
Mitsui, Kentaro, *Canonical bundle formula and base change* 775
Moriwaki, Atsushi, *See* Burgos Gil, José Ignacio 201
Osipov, Denis, and Xinwen Zhu, *The two-dimensional Contou-Carrère symbol and reciprocity laws* 703
Paluba, Robert, *See* Boalch, Philip 607
Philippon, Patrice, *See* Burgos Gil, José Ignacio 201
Sano, Taro, *On deformations of $\mathbb{Q}$-Fano 3-folds* 141
Sawon, Justin, *A finiteness theorem for Lagrangian fibrations* 431
Sombra, Martín, *See* Burgos Gil, José Ignacio 201
Szamuely, Tamás, *See* Harari, David 571
Zheng, Weizhe, *See* Illusie, Luc 289
Zhu, Xinwen, *See* Osipov, Denis 703

INFORMATION FOR AUTHORS

Submission of Manuscripts. All manuscripts should be electronically prepared in $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX. A PDF file of the manuscript should be sent via email to the Managing Editor or to any member of the Editorial Board. Authors are encouraged to submit manuscripts written in English. An abstract of at least one complete sentence and at most 300 words is required for every paper. The *Journal of Algebraic Geometry* offers free worldwide access to the electronic abstracts. All author names must be in First-Middle-Surname order. A manuscript accepted for publication must be typeset by the author(s) in $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX.

Authors should supply email addresses if available and current postal addresses, along with their affiliations, on the last page of the manuscript. To help avoid delays in publication, authors are encouraged to send changes in postal and email addresses to jagquery@ams.org, especially before proof has been sent to authors. Articles are electronically published after proof is returned from authors and before appearing in an issue. Once an article is published electronically, author information, such as postal and email addresses, cannot be updated.

To eliminate unnecessary delay or difficulties in printing, authors may be guided by the book *Mathematics into Type*, updated edition, Amer. Math. Soc., 1999.

Footnotes, except a possible acknowledgment of assistance or financial support on the first page, should be avoided by being incorporated into the text, perhaps parenthetically.

References will be published as submitted. For the best presentation, the list of references must be submitted in alphabetical-chronological order; abbreviations of names of journals and references to books should follow the standard form established by Mathematical Reviews. Abbreviations used in bibliographies are accessible from `www.ams.org/msnhtml/serials.pdf`. The following references are two typical examples:

[1] R. Hartshorne, *Algebraic geometry*, Graduate Texts in Mathematics 52, Springer-Verlag, New York, Heidelberg, Berlin, 1977.

[2] N. Hochster and J. L. Roberts, *Rings of invariants of reductive groups acting on regular rings are Cohen-Macaulay*, Adv. Math. **13** (1974) 115–175.

An $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX author package has been prepared for the convenience of the author. The author package includes instructions for preparing electronic manuscripts, the *AMS Author Handbook*, samples, and a style file. Authors who make use of these style files from the beginning of the writing process will reduce their own effort. Comprehensive instructions on preparing graphics are available starting from `www.ams.org/jourhtml/authors.html`.

Authors may retrieve an author package for *Journal of Algebraic Geometry* from `www.ams.org/jag/jagauthorpac.html` or via FTP to `ftp.ams.org` (login as `anonymous`, enter your complete email address as password, and type `cd pub/author-info`). The *AMS Author Handbook* and the *Instruction Manual* are available in PDF format from the author package link. The author package can also be obtained free of charge by sending email to `tech-support@ams.org` or from the Publication Division, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294 USA. When requesting an author package, please specify $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX and the publication in which your paper will appear. Please be sure to include your complete email address.

Immediately after a paper has been accepted for publication, the electronically prepared manuscripts (.tex files) should be submitted via the web at `www.ams.org/submit-book-journal/`, sent via email to `pub-submit@ams.org`, or sent on CD to the Electronic Prepress Department, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294 USA. When submitting electronic manuscripts via email or CD, please include a message indicating that the paper has been accepted for publication in the *Journal of Algebraic Geometry*. The author should also send one hard copy of the final version of the paper to the Managing Editor.

Proofs. Authors receive only one set of proofs for corrections and will be responsible for the expense of making excessive alterations to the original manuscript during the proofreading. Authors will be responsible for adjustments made to artwork not provided in camera-ready form.

Offprints. Offprints are provided free of charge in electronic format. A downloadable and printable PDF version of the published article will be available on the AMS website at `www.ams.org/myoffprints` immediately following each issue's publication date.
