The *Journal of Algebraic Geometry*, published quarterly by University Press, Inc., is devoted to the publication of research papers in algebraic geometry, singularity theory, and related subjects such as number theory, commutative algebra, projective geometry, complex geometry, and geometric topology.

Starting with the 2002 subscription, the *Journal of Algebraic Geometry* is available in both electronic and paper delivery. List price is US$478 for electronic + paper delivery, US$443 for electronic only; the price for individuals is US$198 for electronic + paper delivery, US$175 for electronic only. If ordering the paper version, add US$6 for delivery within the United States, US$13 for delivery outside the United States. Subscription renewals are subject to late fees. See `www.ams.org/journal-faq` for more information.

Subscriptions and orders should be addressed to the American Mathematical Society, P. O. Box 845904, Boston, MA 02284-5904 USA. Telephone 1-800-321-4267, Fax (401)-331-3842. All orders must be accompanied by payment, and checks should be made payable to the American Mathematical Society. General correspondence and changes of address should be sent to the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213 USA.

Instructions for submission of manuscripts are given on the inside back cover of this issue.

This journal is indexed in *Science Citation Index™–Expanded, ISI Alerting Services℠, CompuMath Citation Index®, Current Contents®/Physical, Chemical & Earth Sciences.*
ISSN 1056-3911 (print); ISSN 1534-7486 (online)
Printed in the United States of America.
♾ The paper used in this issue is acid-free and falls
within the guidelines established to ensure permanence and durability.

INDEX

Botero, Ana María, *Intersection theory of toric b-divisors in toric varieties* 291
Bruinier, Jan Hendrik, and Martin Möller, *Cones of Heegner divisors* 497
Bussi, Vittoria, Dominic Joyce, and Sven Meinhardt, *On motivic vanishing cycles of critical loci* 405
Campbell, Justin, *A resolution of singularities for Drinfeld's compactification by stable maps* 153
Cao, Junyan, and Andreas Höring, *A decomposition theorem for projective manifolds with nef anticanonical bundle* 567
Cheltsov, Ivan, Victor Przyjalkowski, and Constantin Shramov, *Which quartic double solids are rational?* 201
Fedorchuk, Maksym, and Alexander Isaev, *Stability of associated forms* 699
Feller, Peter, and Immanuel van Santen, *Uniqueness of embeddings of the affine line into algebraic groups* 649
Göttsche, Lothar, and Franziska Schroeter, *Refined broccoli invariants* 1
Göttsche, Lothar, and Yao Yuan, *Generating functions for K-theoretic Donaldson invariants and Le Potier's strange duality* 43
Hamacher, Paul, *The product structure of Newton strata in the good reduction of Shimura varieties of Hodge type* 721
Hauser, Herwig, and Stefan Perlega, *Cycles of singularities appearing in the resolution problem in positive characteristic* 391
Höring, Andreas, *See* Cao, Junyan 567
Isaev, Alexander, *See* Fedorchuk, Maksym 699
Ito, Atsushi, Makoto Miura, Shinnosuke Okawa, and Kazushi Ueda, *The class of the affine line is a zero divisor in the Grothendieck ring: Via G_2-Grassmannians* 245
Joyce, Dominic, *See* Bussi, Vittoria 405
Liu, Kefeng, Sheng Rao, and Xueyuan Wan, *Geometry of logarithmic forms and deformations of complex structures* 773
McCrory, Clint, Adam Parusiński, and Laurenţiu Păunescu, *Algebraic stratified general position and transversality* 139
Meinhardt, Sven, *See* Bussi, Vittoria 405
Meng, Xiankui, and Xiangyu Zhou, *Pseudo-effective line bundles over holomorphically convex manifolds* 169
Miura, Makoto, *See* Ito, Atsushi 245
Miyazaki, Hiroyasu, *Cube invariance of higher Chow groups with modulus* 339
Möller, Martin, *See* Bruinier, Jan Hendrik 497
Moonen, Ben, *A remark on the Tate conjecture* 599
Nizioł, Wiesława, *Geometric syntomic cohomology and vector bundles on the Fargues-Fontaine curve* 605

Okada, Takuzo, *Stable rationality of orbifold Fano 3-fold hypersurfaces* 99
Okawa, Shinnosuke, *See* Ito, Atsushi 245
Pandharipande, R., A. Pixton, and D. Zvonkine, *Tautological relations via r-spin structures* 439
Parusiński, Adam, *See* McCrory, Clint 139
Păunescu, Laurenţiu, *See* McCrory, Clint 139
Perlega, Stefan, *See* Hauser, Herwig 391
Pixton, A., *See* Pandharipande, R. 439
Porta, Mauro, *GAGA theorems in derived complex geometry* 519
Przyjalkowski, Victor, *See* Cheltsov, Ivan 201
Rao, Sheng, *See* Liu, Kefeng 773
Richarz, Timo, *Spaces with $\mathbb{G}_m$-action, hyperbolic localization and nearby cycles* 251
Schroeter, Franziska, *See* Göttsche, Lothar 1
Shramov, Constantin, *See* Cheltsov, Ivan 201
Totaro, Burt, *The failure of Kodaira vanishing for Fano varieties, and terminal singularities that are not Cohen-Macaulay* 751
Ueda, Kazushi, *See* Ito, Atsushi 245
van Santen, Immanuel, *See* Feller, Peter 649
Wan, Xueyuan, *See* Liu, Kefeng 773
Yuan, Yao, *See* Göttsche, Lothar 43
Zhou, Xiangyu, *See* Meng, Xiankui 169
Zvonkine, D., *See* Pandharipande, R. 439

INFORMATION FOR AUTHORS

Submission of Manuscripts. All manuscripts should be electronically prepared in $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX. A PDF file of the manuscript should be sent via email to the Managing Editor or to any member of the Editorial Board. Authors are encouraged to submit manuscripts written in English. An abstract of at least one complete sentence and at most 300 words is required for every paper. The *Journal of Algebraic Geometry* offers free worldwide access to the electronic abstracts. All author names must be in First-Middle-Surname order. A manuscript accepted for publication must be typeset by the author(s) in $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX.

Authors should supply email addresses if available and current postal addresses, along with their affiliations, on the last page of the manuscript. To help avoid delays in publication, authors are encouraged to send changes in postal and email addresses to jagquery@ams.org, especially before proof has been sent to authors. Articles are electronically published after proof is returned from authors and before appearing in an issue. Once an article is published electronically, author information, such as postal and email addresses, cannot be updated.

To eliminate unnecessary delay or difficulties in printing, authors may be guided by the book *Mathematics into Type*, updated edition, Amer. Math. Soc., 1999.

Footnotes, except a possible acknowledgment of assistance or financial support on the first page, should be avoided by being incorporated into the text, perhaps parenthetically.

References will be published as submitted. For the best presentation, the list of references must be submitted in alphabetical-chronological order; abbreviations of names of journals and references to books should follow the standard form established by Mathematical Reviews. Abbreviations used in bibliographies are accessible from `www.ams.org/msnhtml/serials.pdf`. The following references are two typical examples:

[1] R. Hartshorne, *Algebraic geometry*, Graduate Texts in Mathematics 52, Springer-Verlag, New York, Heidelberg, Berlin, 1977.

[2] N. Hochster and J. L. Roberts, *Rings of invariants of reductive groups acting on regular rings are Cohen-Macaulay*, Adv. Math. **13** (1974) 115–175.

An $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX author package has been prepared for the convenience of the author. The author package includes instructions for preparing electronic manuscripts, the *AMS Author Handbook*, samples, and a style file. Authors who make use of these style files from the beginning of the writing process will reduce their own effort. Comprehensive instructions on preparing graphics are available starting from `www.ams.org/jourhtml/authors.html`.

Authors may retrieve an author package for *Journal of Algebraic Geometry* from `www.ams.org/jag/jagauthorpac.html`. The *AMS Author Handbook* is available in PDF format from the author package link. The author package can also be obtained free of charge by sending email to `tech-support@ams.org` or from the Publication Division, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213 USA. When requesting an author package, please specify $\mathcal{A}\mathcal{M}\mathcal{S}$-LaTeX and the publication in which your paper will appear. Please be sure to include your complete email address.

Immediately after a paper has been accepted for publication, the electronically prepared manuscripts (.tex files) should be submitted via the web at `www.ams.org/submit-book-journal/`, sent via email to `pub-submit@ams.org`, or sent on CD to the Electronic Prepress Department, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213 USA. When submitting electronic manuscripts via email or CD, please include a message indicating that the paper has been accepted for publication in the *Journal of Algebraic Geometry.* The author should also send one hard copy of the final version of the paper to the Managing Editor.

Proofs. Authors receive only one set of proofs for corrections and will be responsible for the expense of making excessive alterations to the original manuscript during the proofreading. Authors will be responsible for adjustments made to artwork not provided in camera-ready form.

Offprints. Offprints are provided free of charge in electronic format. A downloadable and printable PDF version of the published article will be available on the AMS website at `www.ams.org/myoffprints` immediately following each issue's publication date.
