

## TABLE ERRATA

**442.**—MILTON ABRAMOWITZ & IRENE A. STEGUN, Editors, *Handbook of Mathematical Functions with Formulas, Graphs, and Mathematical Tables*, National Bureau of Standards, Applied Mathematics Series, No. 55, U.S. Government Printing Office, Washington, D.C., 1964.

On p. 953 under (4) *Acceptance-rejection method*, the senses of both inequalities should be reversed, so that they will correctly read

$$e^{-(x-1)^2/2} \geq u_2 \quad \text{and} \quad (x-1)^2 \leq -2(\ln u_2).$$

EDITORIAL NOTE: This correction has been made in the fifth and subsequent printings.

On p. 797, in Table 22.7 the entry in row  $C_{10}$  and column  $x^8$  should read  $-10$ , instead of  $-20$ .

On p. 799, in Table 22.10, the entry in row  $L_8$  and column  $x^9$  should read 3265920, instead of 3269520.
