CORRIGENDA

M. GOLDBERG & S. ABARBANEL, "Stable approximations for hyperbolic systems with moving internal boundary conditions," *Math. Comp.*, v. 28, 1974, pp. 413–447.

On p. 415, formula (1.4), should read: $t \rightarrow t,\ x \rightarrow \xi + \nu_0 h$.

On p. 426, second line from the bottom, should read:

$$C_{\pm 1} = \frac{1}{2} \begin{pmatrix} 1 \pm \lambda a & \lambda \\ \lambda & 1 \pm \lambda b \end{pmatrix}.$$

On p. 432, formula (3.44), should read:

$$g_\nu = \sigma_1 \kappa_1^\nu + \sigma_2 \kappa_2^\nu.$$

On p. 446, end of second line of formula (5.14a), should read:

$$(F_\nu^m - F_{\nu-1}^m).$$
