

CORRIGENDA

THERESA P. VAUGHAN, "The discriminant of a quadratic extension of an algebraic field," *Math. Comp.*, v. 40, 1983, pp. 685–707.

On page 705 in Table V(e) the lines reading

$$\begin{array}{llll} 2k & 4j + 1 & (k - y \text{ even}) & 2^3 \\ 2k + 1 & 4j + 3 & (k - y \text{ even}) & 2^3 \end{array}$$

should be replaced by

all others with

$$2 \parallel N(n + mw) \quad 2^3$$

H. J. GODWIN, "On quartic fields of signature one with small discriminant. II," *Math. Comp.*, v. 42, 1984, pp. 707–711.

As a result of an unfortunate printer's error, a number of leading ones crept into Table 2 where they do not belong. Consequently, on p. 710, the first digit "1" should be removed in the left column headed by " μ " on lines 7, 8, 10, 13, 14, 16 corresponding to the discriminant values $\Delta = -1024, -1156, -1375, -1600, -1728, -1792$, and in the right column headed by " μ " on lines 1, 2, 3, 10, 12, 17 corresponding to the discriminant values $\Delta = -1984, -2000, -2048, -3312, -3475, -4032$. Likewise, on p. 711, the leading digit "1" should be removed in the left μ -column on lines 2, 6, 12, 13, 14, 17 corresponding to the Δ -values $-4275, -4608, -5488, -5491, -5616, -5888$, and in the right μ -column on lines 2, 5, 6, 7, 10, 12, 13, 14 corresponding to the Δ -values $-6336, -6592, -6724, -6768, -6912, -7267, -7375, -7600$. We sincerely apologize to the author for this mishap.
