The selection committees for these prizes request nominations for consideration for the 2010 awards, which will be presented at the Joint Mathematics Meetings in San Francisco, CA, in January 2010. Information about past recipients of these prizes may be found in the November 2007 issue of the Notices, pp. 1372–1390 and at http://www.ams.org/prizes-awards. Each of these US$5,000 prizes is awarded every three years.

DAVID P. ROBBINS PRIZE

This prize was established in 2005 in memory of David P. Robbins by members of his family. Robbins was a long-time member of the Institute for Defense Analysis Center for Communications Research and a prolific mathematician whose work (much of it classified) was in discrete mathematics. The prize is for a paper with the following characteristics: it shall report on novel research in algebra, combinatorics or discrete mathematics and shall have a significant experimental component; it shall be on a topic which is broadly accessible and shall provide both a clear statement of the problem and clear exposition of the work. The nomination should include a complete bibliographic citation for that work, supplemented with brief remarks explaining what aspects make it particularly suited for this prize.

OSWALD VEBLEN PRIZE IN GEOMETRY

The Oswald Veblen Prize in Geometry, which was established in 1961 in honor of Professor Veblen, is awarded in recognition of a notable research memoir in geometry or topology published in the preceding six years. To be considered, either the nominee should be a member of the Society or the memoir should have been published in a North American journal.

NORBERT WIENER PRIZE IN APPLIED MATHEMATICS

The Norbert Wiener Prize was established in 1967 in honor of Professor Wiener and was endowed by a fund from the Department of Mathematics of the Massachusetts Institute of Technology. The prize is awarded for an outstanding contribution to applied mathematics in the highest and broadest sense and is made jointly by the American Mathematical Society and the Society for Industrial and Applied Mathematics. The recipient must be a member of one of these societies and a resident of the United States, Canada, or Mexico.

Nominations should be submitted to the Secretary, Robert J. Daverman, American Mathematical Society, 302A Aconda Court, Department of Mathematics, University of Tennessee, Knoxville TN 37996-0612. Include a short description of the work that is the basis of the nomination, with complete bibliographic citations when appropriate. A brief curriculum vita of the nominee also should be included. The nominations will be forwarded by the Secretary to the appropriate prize selection committee, which will make final decisions on the awarding of these prizes.

Deadline for nominations is June 30, 2009.
