ICERM’s postdoctoral program brings early career mathematicians to the institute in order to support and expand their research and to create lasting career collaborations and connections.

2017-2018 Postdoctoral Institute Fellows:
ICERM’s two Postdoctoral Institute Fellowships are nine-month appointments receiving a salary and benefits. Both positions commence in September 2017. One will participate in the fall 2017 “Mathematical and Computational Challenges in Radar and Seismic Reconstruction” semester program and remain as a researcher-in-residence during the spring 2018 semester. The other will begin as a researcher-in-residence during the fall 2017 semester and will participate in the spring 2018 “Point Configurations in Geometry, Physics and Computer Science” semester program. ICERM will match these two Postdoctoral Institute Fellows with faculty mentors for the entire academic year. Each position comes with the possibility of summer support.

2017-2018 Postdoctoral Semester Fellows:
ICERM’s ten Postdoctoral Fellowships are four-month appointments receiving a stipend and benefits. Five will begin in September 2017 during the “Mathematical and Computational Challenges in Radar and Seismic Reconstruction” semester program. The other five will start in February 2018 during the “Point Configurations in Geometry, Physics and Computer Science” semester program. ICERM will match each Postdoctoral Fellow with a faculty mentor for the duration of the semester program.

For Full Consideration:
Applicants must submit an AMS Standard Cover Sheet, curriculum vitae (including publication list), cover letter, research statement, and three letters of recommendation to MathJobs.org (search under “Brown University”) by mid-January 2017. More details at icerm.brown.edu

Brown University is an Equal Opportunity/Affirmative Action Employer.

Ways to participate:
Propose a:
• semester program
• topical workshop
• small group research program
• summer undergrad program
Apply for a:
• semester program or workshop
• postdoctoral fellowship

About ICERM: The Institute for Computational and Experimental Research in Mathematics is a National Science Foundation Mathematics Institute at Brown University in Providence, RI.
