

## EMS Monograph Award – Call for Submissions

The EMS Monograph Award is assigned every year to the author(s) of a monograph in any area of mathematics that is judged by the selection committee to be an outstanding contribution to its field. The prize is endowed with 10,000 Euro and the winning monograph will be published by the EMS Publishing House in the series “EMS Tracts in Mathematics”.

Previous prize winners were Patrick Dehornoy et al. for the monograph *Foundations of Garside Theory*, Augusto C. Ponce (*Elliptic PDEs, Measures and Capacities. From the Poisson Equation to Nonlinear Thomas–Fermi Problems*), Vincent Guedj and Ahmed Zeriahi (*Degenerate Complex Monge–Ampère Equations*), and Yves de Cornulier and Pierre de la Harpe (*Metric Geometry of Locally Compact Groups*). All books were or will be published in the Tracts series.

The deadline for the next award, to be announced in 2018, is **30 June 2017**.

### Submission of manuscripts

The monograph must be original and unpublished, written in English and should not be submitted elsewhere until an editorial decision is rendered on the submission. Monographs should preferably be typeset in TeX. Authors should send a pdf file of the manuscript by email to:

awards@ems-ph.org

Michael Farber  
(Queen Mary University of London, UK)

Michael Röckner  
(Universität Bielefeld, Germany,  
and Purdue University, USA)

Vladimir Turaev  
(Indiana University, Bloomington, USA)

Alexander Varchenko  
(University of North Carolina at Chapel Hill, USA)

This series includes advanced texts and monographs covering all fields in pure and applied mathematics. Tracts will give a reliable introduction and reference to special fields of current research. The books in the series will in most cases be authored monographs, although edited volumes may be published if appropriate. They are addressed to graduate students seeking access to research topics as well as to the experts in the field working at the frontier of research.
