

The **Statistical and Applied Mathematical Sciences Institute (Samsi)** is soliciting applications from statistical, mathematical and computational scientists for up to 6 postdoctoral positions for the Samsi research programs in 2019-2020. The three programs are:

(1) **Games, Decisions, Risk and Reliability**,
(2) **Deep Learning**, and
(3) **Causal Inference**. Appointments will begin in **August, 2019** and typically run for two years, although they can also be arranged for a single year. Appointments are made jointly between Samsi and one of its partner universities (*Duke University, North Carolina State University, and the University of North Carolina Chapel Hill*). Teaching opportunities may be available. The positions offer extremely competitive salaries, a travel stipend, and health insurance benefits.

Criteria for selection of Samsi Postdoctoral Fellows include demonstrated research ability in statistics, applied mathematics, and/or computational science, excellent computing skills, and the ability to communicate both orally and in writing. Also, the preferred applicant will have a strong interest in one or more of the research programs scheduled for 2019-2020. The deadline for full consideration is **December 15, 2018**, although later applications will be considered as resources permit.

Please specify which Samsi programs you are applying for in your cover letter and why you believe you would be a good fit for those programs.
