AWM Research Symposium

Mariam Manuel

The Association for Women in Mathematics (AWM), with partial support from the AMS, will hold its 2019 Research Symposium at Rice University on April 6–7, 2019. The symposium will showcase research from women across the mathematical sciences working in academia, government, and industry, as well as feature women across the career spectrum: undergraduates, graduate students, postdocs, and professionals. Plenary lectures will be given by Susanne Brenner, Kristin Lauter, and Chelsea Walton. Mariam Manuel will be the keynote speaker. A poster session, research sessions, and a career panel on women in industry will be held. For more information, see <https://awm-math.org/meetings/awm-research-symposium/>.

—From an AWM announcement,

SHARE YOUR VISION FOR A REIMAGINED JMM

Co-managed by the AMS and the MAA for many years, the Joint Mathematics Meetings (JMM) is the world's largest gathering of mathematicians. Starting in 2022, the AMS will manage the JMM solely, while the MAA and other organizations will continue to participate.

This is a chance for us to reimagine the JMM to ensure a continued rich experience, and to ask you to share your ideas for the JMM in 2022 and beyond. How would you rethink or improve the meetings?

Thank you for helping to ensure that the JMM continues to offer “something for everyone” within the mathematical community.
