

# 2018 Contributors

**Catherine A. Roberts**  
AMS Executive Director

Photo courtesy of Laurie DeVitt/Pure Light Images

Dear AMS Members and Friends,

I am filled with gratitude for your remarkable generosity in supporting mathematics; the year 2018 was very special. We began to build The Next Generation Fund (NextGen), a permanent endowment to support early career mathematicians. A generous benefactor sparked this initiative by offering to match up to \$1.5 million in gifts and pledges. Many of you are responding with enthusiasm to this fundraising challenge. In doing so, you are creating an enduring resource that will impact hundreds of emerging mathematicians every year at formative moments in their professional lives. Thank you!

As part of this endeavor, we introduced the Maryam Mirzakhani Fund for The Next Generation. This is a special named fund within the NextGen endowment supporting the same goals and activities as NextGen. Your donations to this fund honor Professor Mirzakhani's memory by helping the rising mathematicians of today and tomorrow.

Our donors continue to advance our strategic priorities in creative ways. Philippe Tondeur gave a significant boost to the BIG Math Network, helping to connect aspiring mathematical scientists with career opportunities in business, industry, and government. The Mary P. Dolciani Halloran Foundation funded a new AMS prize to recognize faculty members from non-doctoral mathematics departments for their active research programs and distinguished records of scholarship.

I want to acknowledge everyone who is making a legacy gift to the AMS through their estate. Your thoughtful vision will help shape mathematics well into the future. The AMS received bequests last year from the estates of Eugene and Katherine Toll, and James and Bettie Hannan, providing vital unrestricted support to AMS programs and services.

The following list includes several first time donors. We welcome you with deep appreciation for your kindness. We also celebrate our many long-time supporters who have donated to the AMS for ten years, twenty years, and longer! Your dedication fuels our mission to advance research and create connections.

You may notice our 2018 Contributors report now features an expanded Thomas S. Fiske Society list, and a special section for the Campaign for The Next Generation identifying people who made gifts and pledges to the campaign as of December 31, 2018.

Every person on the 2018 Contributors list, including those who prefer to be anonymous, helps make wonderful things happen in our mathematics community, both locally and globally. On behalf of all the people and programs benefiting from your selfless generosity, I offer you my deepest thanks.

Catherine A. Roberts  
*Executive Director*

## Thomas S. Fiske Society

Members of the Thomas S. Fiske Society create a personal legacy supporting mathematics by naming the AMS in their will, retirement plan, or other gift vehicle. The AMS celebrates the following people for their thoughtful vision.

**"Without the generosity of donors such as yourself, my trip to the Joint Mathematics Meetings would not have been possible. Because of you, I was able to give a talk about my research, receive feedback from experts in my area, and participate in ten job interviews. I have two on-campus interviews scheduled now. I cannot thank you enough for your contribution that helped make this happen for me!"**
