Mathematics Research Communities (MRC) is a program featuring a week-long, hands-on summer conference organized by a team of experienced researchers who:

- Work with motivated, able, early-career mathematicians;
- Mentor them in a relaxed and informal setting;
- Contribute to excellence and professionalism in the mathematical realm.

Participants form self-sustaining cohorts centered on the mathematical research area chosen by the organizers.

The AMS staff will take care of all the logistical matters; organizers are responsible for the summer conference scientific program.

We welcome proposals in all areas of pure and applied mathematics, including topics of relevance in business, industry, and government.

Details about the MRC program and guidelines for organizer proposal preparation can be found at www.ams.org/mrc-proposals-21.

The 2021 MRC program is contingent on renewed funding from the National Science Foundation.

Send expressions of interest, proposals for 2021, and inquiries for future years to:

- eMail: mrc2021@ams.org
- Mail: Mathematical Research Communities
  American Mathematical Society
  201 Charles Street
  Providence, RI 02904
- Fax: 401.455.4004

The target date for proposals is August 31, 2019.
