An Invitation to Apply for the

AMS CONGRESSIONAL FELLOWSHIP

The American Mathematical Society will sponsor a Congressional Fellow from September 2021 through August 2022.

The Fellow will spend the year working on the staff of a member of Congress or a congressional committee, working as a legislative assistant in legislative and policy areas requiring scientific and technical input. The program includes an orientation on congressional and executive branch operations and a year-long seminar series on issues involving science, technology, and public policy.

The Fellowship is designed to provide a unique public policy learning experience, to demonstrate the value of science–government interaction and to bring a technical background and external perspective to the decision-making process in Congress.

Prospective Fellows must be cognizant of and demonstrate sensitivity toward political and social issues and have a strong interest in applying personal knowledge toward the solution of societal problems.

Applications are invited from individuals in the mathematical sciences. Applicants must have a PhD or an equivalent doctoral-level degree by the application deadline (February 1, 2021). Applicants must be US citizens. Federal employees are not eligible.

An AMS Fellowship Selection Committee will select the AMS Congressional Fellow. The Fellowship stipend is US$86,335 for the Fellowship period, with allowances for relocation and professional travel and a contribution toward health insurance.

Applicants must submit a statement expressing interest and qualifications for the AMS Congressional Fellowship as well as a current curriculum vitae. Candidates should also arrange for three letters of recommendation to be sent to the AMS by the February 1, 2021 deadline.
