Please join us for this annual workshop for department chairs and leaders to be held in a virtual format on Thursday, January 14, 2021.

Like almost every aspect of society, higher education has been in a state of turmoil since the COVID-19 pandemic hit. The 2021 Department Chairs Workshop will provide an opportunity to share experiences and reflect on what math department chairs, math departments, and colleges and universities are doing to react to the emergency. Some of the emerging issues have to do with resources, handling stress (students, staff, and faculty), and how to deliver our curriculum under new paradigms. In an effort to best respond to the changing landscape due to the COVID pandemic, topics for the workshop will be finalized in the weeks before the workshop. Registered participants will receive a short questionnaire in December about the demographics of their departments and about potential topics for discussion at the workshop.

**Registration fee:**

- $50 discounted AMS member rate – Half Price
- $100 non-member rate

If you are interested in attending, please register online by December 18th at [https://bit.ly/3l8aRGL](https://bit.ly/3l8aRGL).

**Workshop leaders:**

- Luca Capogna, Worcester Polytechnic Institute
- Kevin Knudson, University of Florida
- Jennifer Zhao, University of Michigan-Dearborn
