

AMS *Claytor Gilmer* FELLOWSHIP

A fellowship created to further excellence in mathematical research and to help generate wider and sustained participation by Black mathematicians. The fellowship was established in 2021.

The most likely awardee will be a mid-career Black mathematician based at a U.S. institution whose achievements demonstrate significant potential for further contributions to mathematics.

Application period: October 4 – December 1

Further information and instructions for submitting an application can be found at the fellowship website: www.ams.org/claytor-gilmer
