Employment Opportunities

ALABAMA

Assistant Professor – Non-Tenure Track

The Department of Mathematics at the University of Alabama Birmingham invites candidates to apply for the position of Assistant Teaching Professor beginning August 15, 2022. PhD is required, experience with teaching Calculus is preferred. Review of applications begins January 3, 2022.

UAB is an Equal Opportunity Employer committed to fostering a diverse, equitable and family-friendly environment in which all faculty and staff can excel and achieve work/life balance irrespective of race, national origin, age, genetic or family medical history, faith, gender identity and expression as well as sexual orientation.

Assistant Professor (Tenure-Track)

The Department of Mathematics at the University of Alabama Birmingham invites applications for a tenure-track assistant professor position beginning August 15, 2022. Applicants whose research is focused on probability and statistics are encouraged to apply. More information for this search: [https://uab.peopleadmin.com/postings/9719](https://uab.peopleadmin.com/postings/9719). Review of applications begins December 15, 2021.

UAB is an Equal Opportunity Employer committed to fostering a diverse, equitable and family-friendly environment in which all faculty and staff can excel and achieve work/life balance irrespective of race, national origin, age, genetic or family medical history, faith, gender identity and expression as well as sexual orientation.

MASSACHUSETTS

Department of Mathematics at Northeastern University

Northeastern University invites applications for a tenure-track/tenure Assistant/Associate Professor position, in the field of Mathematical Foundations of Modeling and Optimization in Science and Engineering. The primary appointment will be in the Department of Mathematics with joint appointments in other Colleges including Khoury College of Computer Sciences and the College of Engineering. Appointments will have the opportunity to collaborate in cross-disciplinary teams across the University and will complement existing strengths.

Relevant fields of study include Applied Analysis, Partial Differential Equations, Imaging, Discrete and Computational Mathematics, Probability, Optimization, and Network Science. We seek individuals to make research contributions at the interface between Mathematics and the Life Sciences, Engineering, or Computer Sciences.

Applications are invited for positions at the rank of Assistant Professor (tenure-track) beginning in academic year 2022–2023. Exceptional senior candidates will be considered for appointment at higher ranks.

The Notices Classified Advertising section is devoted to listings of current employment opportunities. The publisher reserves the right to reject any listing not in keeping with the Society’s standards. Acceptance shall not be construed as approval of the accuracy or the legality of any information therein. Advertisers are neither screened nor recommended by the publisher. The publisher is not responsible for agreements or transactions executed in part or in full based on classified advertisements.

The 2022 rate is $3.65 per word. Advertisements will be set with a minimum one-line headline, consisting of the institution name above body copy, unless additional headline copy is specified by the advertiser. Headlines will be centered in boldface at no extra charge. Ads will appear in the language in which they are submitted. There are no member discounts for classified ads. Dictation over the telephone will not be accepted for classified ads.

Upcoming deadlines for classified advertising are as follows: March 2022—December 23, 2021; April 2022—January 21, 2022; May 2022—February 25, 2022; June/July 2022—April 22, 2022; August 2022—May 20, 2022; September 2022—June 24, 2022; October 2022—July 22, 2022; November 2022—August 26, 2022; December 2022—September 23, 2022.

US laws prohibit discrimination in employment on the basis of color, age, sex, race, religion, or national origin. Advertisements from institutions outside the US cannot be published unless they are accompanied by a statement that the institution does not discriminate on these grounds whether or not it is subject to US laws.

Submission: Send email to classads@ams.org.
At Northeastern University, we embrace a culture of respect, where each person is valued for their contribution and is treated fairly. We oppose all forms of racism. We support a culture that does not tolerate any form of discrimination and where each person may belong. We strive to have a diverse membership, one where each person is trained and mentored to promote their success.

Responsibilities will include teaching undergraduate and graduate courses, conducting an independent and externally funded research program, and participating in departmental, college, and university service. Qualified candidates must have experience in, or a demonstrated commitment to, working with diverse student populations and/or in a culturally diverse work and educational environment.

Applicants must have a PhD in Mathematics or a field closely related to one of the above-listed areas of expertise by the appointment start date. Postdoctoral research experience, while recommended, is not required. All applicants should have a strong record of scholarly accomplishment that demonstrates research productivity and the ability to perform cutting edge research. Candidates seeking appointment at the Associate Professor level should have substantial research productivity and an established history of grant support and academic service. Research excellence is the top-most priority. Depending on the research profile and expertise, a joint or affiliate appointment in another department(s) within the University is possible.

Northeastern University is an equal opportunity employer, seeking to recruit and support a broadly diverse community of faculty and staff. Northeastern values and celebrates diversity in all its forms and strives to foster an inclusive culture built on respect that affirms inter-group relations and builds cohesion.

All qualified applicants are encouraged to apply and will receive consideration for employment without regard to race, religion, color, national origin, age, sex, sexual orientation, disability status, or any other characteristic protected by applicable law.

Faculty Positions in the Department of Mathematics

The Department of Mathematics of Southern University of Science and Technology (SUSTech) invites applications and nominations for multiple tenured or tenure-track faculty positions (Assistant Professor, Associate Professor, Full Professor and Chair Professor) in all areas of Pure Mathematics, Computational and Applied Mathematics, Probability and Financial Mathematics, with an anticipated starting date of August 2023. Candidates should have demonstrated excellence in research and a strong commitment to teaching. A doctoral degree is required at the time of appointment. Candidates for senior positions must have an established strong record of research and leadership in their research area. The language of instruction can be either Chinese or English. Salary and start-up fund are highly competitive and will be commensurate with experience and qualifications. Regular faculty members (tenured and on tenure track) will be provided with generous housing subsidy.

To apply, please send curriculum vitae, description of research interests and statement on teaching to mathjobs.org. The teaching statement should include evidences of effective teaching. Candidates should also arrange for at least three letters of recommendation sent directly to MathJobs. Complete applications received before Nov. 30, 2021 will receive full consideration. Late applications will also be considered until the positions are filled.

Established in 2012, the Southern University of Science and Technology (SUSTech) is a public institution funded by the municipal government of Shenzhen, a special economic zone in China. Shenzhen, a major city located in Southern China and situated immediately north of Hong Kong, is the high-tech and manufacturing hub of China. A picturesque coastal city, Shenzhen is also a popular tourist destination and was named one of the world’s 31 must-see tourist destinations in 2010 by *The New York Times*.

The Southern University of Science and Technology is a pioneer in higher education reform in China. The mission of the University is to become a globally recognized institution, emphasizing academic excellence, and promoting innovation, creativity and entrepreneurship. Set on five hundred acres of wooded landscape in the picturesque South Mountain area, the new campus offers an ideal environment for learning and research. The University currently has 800 faculty members in seven faculties: Faculty of Science, Faculty of Engineering, Faculty of Life and Health Science, Faculty of Business, Faculty of Medicine, Faculty of Humanities and Social Sciences, and Faculty of Innovation and Entrepreneurship.

The Department of Mathematics at SUSTech was founded in 2015 with the mission of conducting first-class research and mathematical education. The department offers bachelor, master and doctoral degrees. Current faculty members include two Chinese Academy of Sciences members, six National Talents Distinguished Scholars, and four Junior National Talents Distinguished Scholars. Almost all faculty members have had multiple years of teaching and research experience in top Universities outside of China, and a large percentage of them held tenured positions in the West before joining SUSTech. Research interests of the faculty members cover a broad array of Mathematics including Pure Mathematics, Computational and Applied Mathematics, Probability and Financial Mathematics.

More information about the department can be found at [math.sustech.edu.cn](http://math.sustech.edu.cn).

Tianjin University, China

Tenured/Tenure-Track/Postdoctoral Positions at the Center for Applied Mathematics

Dozens of positions at all levels are available at the recently founded Center for Applied Mathematics, Tianjin University, China. We welcome applicants with backgrounds in pure mathematics, applied mathematics, statistics, computer science, bioinformatics, and other related fields. We also welcome applicants who are interested in practical projects with industries. Despite its name attached with an accent of applied mathematics, we also aim to create a strong presence of pure mathematics.

Light or no teaching load, adequate facilities, spacious office environment and strong research support. We are prepared to make quick and competitive offers to self-motivated hard workers, and to potential stars, rising stars, as well as shining stars.

The Center for Applied Mathematics, also known as the Tianjin Center for Applied Mathematics (TCAM), located by a lake in the central campus in a building protected as historical architecture, is jointly sponsored by the Tianjin municipal government and the university. The initiative to establish this center was taken by Professor S. S. Chern. Professor Molin Ge is the Honorary Director, Professor Zhiming Ma is the Director of the Advisory Board. Professor William Y. C. Chen serves as the Director.

TCAM plans to fill in fifty or more permanent faculty positions in the next few years. In addition, there are a number of temporary and visiting positions. We look forward to receiving your application or inquiry at any time. There are no deadlines.

Please send your resume to mathjobs@tju.edu.cn.

For more information, please visit [cam.tju.edu.cn](http://cam.tju.edu.cn) or contact Mr. Albert Liu at mathjobs@tju.edu.cn, telephone: 86-22-2740-6039.
TAIWAN

Department of Applied Mathematics, NYCU, Taiwan
Call for Applications:
Positions in Pure and Applied Mathematics

The Department of Applied Mathematics at the National Yang Ming Chiao Tung University (NYCU) invites applications for a number of tenure-track or tenured positions at all levels. The candidate’s expertise is expected to complement departmental strength in the following areas:

1. Partial differential equations and dynamical systems;
2. Discrete mathematics and optimization;
3. Number theory, analysis, and geometry;
4. Probability and financial mathematics;
5. Mathematical modeling and scientific computing;

Position Description: Candidates must have an earned doctorate and have a strong record of scientific accomplishments, commensurate to the level of experience. Proficiency in Mandarin teaching is not required. Teaching load is up to 3 courses per year, possibly reduced to 2 courses for outstanding candidates, and at least one course should be taught in English.

Salary: In addition to the statutory annual salary, ranged from 1 million to 1.5 million NTD depending on the rank, it may also include the following possible stipends and benefits for outstanding candidates.

1. University Junior Fellow for young scholars with strong performance in research receives additional 30K-40K NTD monthly for up to three years.
2. Grant and stipend from government: Outstanding applicants can apply for special programs of the Ministry of Science and Technology. See [https://www.most.gov.tw/?l=en](https://www.most.gov.tw/?l=en).
3. Yushan Fellow Program: In addition to the statutory salary, an exceptional candidate can apply for Yushan (Young) Fellowship which once granted can receive at most 5 (1.5) million NTD from the Ministry of Education each year for up to 3 (5) years. Additionally, an administrative supportive grant of up to 1.5 million NTD per year are provided for 3 (5) years. See [https://yushan.moe.gov.tw/TopTalent/EN](https://yushan.moe.gov.tw/TopTalent/EN).

Applicants should submit the following:

1. Cover letter including a statement of the applicant’s research interest, teaching experience and qualifications.
2. Curriculum vitae that includes (if any) applicant’s record of teaching, publications, grants, advising, and administrative and leadership experience.
3. Three letters of recommendation.
4. A copy of PhD diploma.

Position Location: Hsinchu, Taiwan
Application Deadline/Address: February 15, 2022.
By e-mail to: committee@math.nctu.edu.tw
