## **Elements of Dynamical Systems**

**Anima Nagar**, *Indian Institute of Technology, New Delhi, India*, **Riddhi Shah**, *Jawaharlal Nehru University, New Delhi, India*, and **Shrihari Sridharan**, *Indian Institute of Science Education and Research, Thiruvananthapuram, India*, Editors

This book stems from lectures that were given at a three-week Advanced Instructional School on Ergodic Theory and Dynamical Systems held at the Indian Institute of Technology, Delhi during December 2017.

These lecture notes are intended to help a new researcher understand various aspects of dynamical systems. Each chapter of this book specializes in one aspect of dynamical systems; and, thus, begins at an elementary level and goes on to cover fairly advanced material.
