Count Me In
Community and Belonging in Mathematics

Della Dumbaugh, University of Richmond, VA, and Deanna Haunsperger, Carleton College, Northfield, MN, Editors

This groundbreaking work explores the powerful role of communities in mathematics. It introduces readers to twenty-six different mathematical communities and addresses important questions about how they form, how they thrive, and how they advance individuals and the group as a whole. The chapters celebrate how diversity and sameness bind colleagues together, showing how geography, gender, or graph theory can create spaces for colleagues to establish connections in the discipline.
