## Count Me In

Community and Belonging in Mathematics

**Della Dumbaugh**, *University of Richmond, VA*, and **Deanna Haunsperger**, *Carleton College, Northfield, MN*, Editors

This groundbreaking work explores the powerful role of communities in mathematics. It introduces readers to twenty-six different mathematical communities and addresses important questions about how they form, how they thrive, and how they advance individuals and the group as a whole. The chapters celebrate how diversity and sameness bind colleagues together, showing how geography, gender, or graph theory can create spaces for colleagues to establish connections in the discipline.
