Employment Opportunities

The University of Chicago Department of Mathematics invites applications for the position of Assistant Professor. Successful candidates are typically two to four years past the Ph.D. These positions are intended for mathematicians whose work has been of outstandingly high caliber. Appointees are expected to have the potential to become leading figures in their fields. The appointment is generally for four years, with the possibility for renewal. The teaching obligation is up to three one-quarter courses per year.

Applicants are strongly encouraged to include additional information related to their teaching experience, such as evaluations from courses previously taught, as well as an AMS cover sheet. If you have applied for an NSF Mathematical Sciences Postdoctoral Fellowship, please include that information in your application, and let us know how you plan to use it if awarded. Questions may be directed to judygarza@uchicago.edu. We will begin screening applications on November 1, 2022. Screening will continue until all available positions are filled.

Qualifications
Completion of a Ph.D. in mathematics or a closely related field is required at the time of appointment.

Application Instructions

Required materials are: (a) a cover letter, (b) a curriculum vitae, (c) three or more letters of reference, at least one of which addresses teaching ability, (d) a description of previous research and plans for future mathematical research and (e) a teaching statement.

Applications must be submitted online through https://www.mathjobs.org/jobs/list/20321.

We seek a diverse pool of applicants who wish to join an academic community that places the highest value on rigorous inquiry and encourages diverse perspectives, experiences, groups of individuals, and ideas to inform and stimulate intellectual challenge, engagement, and exchange. The University’s Statements on Diversity are at https://provost.uchicago.edu/statements-diversity.

The University of Chicago is an Affirmative Action/Equal Opportunity/Disabled/Veterans Employer and does not discriminate on the basis of race, color, religion, sex, sexual orientation, gender identity, national or ethnic origin, age, status as an individual with a disability, protected veteran status, genetic information, or other protected classes under the law. For additional information please see the University’s Notice of Nondiscrimination—https://www.uchicago.edu/non-discrimination.

Job seekers in need of a reasonable accommodation to complete the application process should call 773-834-3988 or email equalopportunity@uchicago.edu with their request.

The Notices Classified Advertising section is devoted to listings of current employment opportunities. The publisher reserves the right to reject any listing not in keeping with the Society’s standards. Acceptance shall not be construed as approval of the accuracy or the legality of any information therein. Advertisers are neither screened nor recommended by the publisher. The publisher is not responsible for agreements or transactions executed in part or in full based on classified advertisements.

The 2022 rate is $3.65 per word. Advertisements will be set with a minimum one-line headline, consisting of the institution name above body copy, unless additional headline copy is specified by the advertiser. Headlines will be centered in boldface at no extra charge. Ads will appear in the language in which they are submitted. There are no member discounts for classified ads. Dictation over the telephone will not be accepted for classified ads.

US laws prohibit discrimination in employment on the basis of color, age, sex, race, religion, or national origin. Advertisements from institutions outside the US cannot be published unless they are accompanied by a statement that the institution does not discriminate on these grounds whether or not it is subject to US laws.

Submission: Send email to classads@ams.org.

MASSACHUSETTS

Massachusetts Institute of Technology (MIT)
Cambridge, MA
Department of Mathematics

The Mathematics Department at MIT is seeking to fill positions in Pure and Applied Mathematics, and Statistics at the level of Instructor beginning September 1, 2023 (for the 2023–2024 academic year). Appointments are based primarily on exceptional research qualifications. Appointees will be expected to fulfill teaching duties and pursue their own research program. PhD in Mathematics or related field required by employment start date.

The Department of Mathematics offers supportive mentorship to junior faculty and instructors, an exceptional environment for mathematical inquiry, and a strong commitment to an inclusive, welcoming culture. MIT is an equal employment opportunity employer. All qualified applicants will receive consideration for employment and will not be discriminated against on the basis of race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, ancestry, or national or ethnic origin.

For more information and to apply, please visit www.mathjobs.org. To receive full consideration, submit applications by December 1, 2022.

\section*{MASSACHUSETTS}

\textbf{Boston University}

\textbf{Tenure-track Assistant Professor: Number Theory}

The Department of Mathematics and Statistics at Boston University invites applications for a tenure-track Assistant Professor position in number theory. A Ph.D. is required. All areas of number theory will be considered, with some preference given to automorphic representation theory and arithmetic geometry. Our Department is committed to building a diverse community of scholars and invites applicants not only to share their thoughts on teaching and research but also to indicate ways in which they may be able to contribute to the creation of an equitable and inclusive community in the Department.

Submit cover letter, CV, research statement, and teaching statement online to \texttt{mathjobs.org}, and arrange for the online submission to the same address of four recommendation letters, one of which addresses teaching. Application deadline: December 1, 2022. Pending final administrative and budgetary approval, the appointment will start on July 1, 2023. We welcome applications from all eligible candidates without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law. Boston University is an equal opportunity employer and a VEVRAA Federal Contractor.

\section*{UTAH}

\textbf{University of Utah, Department of Mathematics}

\textbf{Current Positions (2022–2023)}

The Department of Mathematics at the University of Utah invites applications for the following positions:

- Non-tenure-track appointments at the level of Wylie Assistant Professor in pure and applied mathematics. These are 3-year, termed [postdoctoral] positions which involve research and teaching, including Wylie Assistant Professorships funded by the Department of Mathematics and grants obtained by our faculty. These additional opportunities and federal funding sources include (1) an NSF Research Training Grant (RTG) on “Optimization and Inversion for the 21st Century Workforce” \texttt{(www.math.utah.edu/amrtg/)} and (2) an NSF RTG on “Algebra, Geometry and Topology at the University of Utah” \texttt{(www.math.utah.edu/agtrtg2019/)}.

- Tenure-track Assistant Professor to work on partial differential equation models for sea ice and its role in the climate system, with Distinguished Professor Ken Golden and colleagues. This is a 3-year, termed [postdoctoral] position which involves research and teaching, funded by an ONR grant on sea ice and the Department of Mathematics. Applicants must have a Ph.D. in Mathematics or a closely related field and must be US citizens, nationals, or permanent residents.

- Non-tenure-track appointment at the level of Assistant Professor to work on partial differential equation models for sea ice and its role in the climate system, with Distinguished Professor Ken Golden and colleagues. This is a 3-year, termed [postdoctoral] position which involves research and teaching, funded by an ONR grant on sea ice and the Department of Mathematics. Applicants must have a Ph.D. in Mathematics or a closely related field.

nondiscrimination or affirmative action policies or to request disability accommodation, please contact: Director, Office of Equal Opportunity and Affirmative Action, 201 S. Presidents Circle, Rm 135, (801) 581-8365. Additional information can be found at [http://www.utah.edu/nondiscrimination/](http://www.utah.edu/nondiscrimination/).

The University of Utah values candidates who have experience working in settings with students from diverse backgrounds and possess a strong commitment to improving access to higher education for historically underrepresented students.

A diverse scholarly community stimulates innovation and educational excellence. The Department of Mathematics at the University of Utah works to maintain a respectful, inclusive, and supportive environment where everyone can flourish. We are actively working to increase our diversity and to promote belonging and community for all. We value constructive input and welcome feedback from our community.

**CHINA**

**Tianjin University, China**

**Tenured/Tenure-Track/Postdoctoral Positions at the Center for Applied Mathematics**

Dozens of positions at all levels are available at the recently founded Center for Applied Mathematics, Tianjin University, China. We welcome applicants with backgrounds in pure mathematics, applied mathematics, statistics, computer science, bioinformatics, and other related fields. We also welcome applicants who are interested in practical projects with industries. Despite its name attached with an accent of applied mathematics, we also aim to create a strong presence of pure mathematics.

Light or no teaching load, adequate facilities, spacious office environment and strong research support. We are prepared to make quick and competitive offers to self-motivated hard workers, and to potential stars, rising stars, as well as shining stars.

The Center for Applied Mathematics, also known as the Tianjin Center for Applied Mathematics (TCAM), located by a lake in the central campus in a building protected as historical architecture, is jointly sponsored by the Tianjin municipal government and the university. The initiative to establish this center was taken by Professor S. S. Chern. Professor Molin Ge is the Honorary Director, Professor Zhiming Ma is the Director of the Advisory Board. Professor William Y. C. Chen serves as the Director.

TCAM plans to fill in fifty or more permanent faculty positions in the next few years. In addition, there are a number of temporary and visiting positions. We look forward to receiving your application or inquiry at any time.

Please send your resume to mathjobs@tju.edu.cn.

For more information, please visit [cam.tju.edu.cn](http://cam.tju.edu.cn) or contact Mr. Albert Liu at mathjobs@tju.edu.cn, telephone: 86-22-2740-6039.
