

APPLY FOR THE

JOAN AND JOSEPH BIRMAN FELLOWSHIP FOR WOMEN SCHOLARS

Pursue your mathematics research more intensely with support from the Joan and Joseph Birman Fellowship for Women Scholars.

This fellowship aims to improve the presence of women scholars at the highest levels of mathematics research by providing funding during their mid-career years.

The most likely awardee is a mid-career woman, based at a U.S. academic institution, with a well-established research record in a core area of mathematics.

This fellowship program, established in 2017, is made possible by a generous gift from Joan and Joseph Birman.

Application period: **August 15–November 8**
