

Support the

AMS 2020 FUND

As we work toward a fully inclusive mathematics profession.

The AMS created the 2020 Fund as a permanent endowment to support and promote the scholarship of Black mathematicians in perpetuity. Since its creation, over 720 donors have made over 1,170 gifts to the 2020 Fund.

Further goals of the 2020 Fund will be informed by the Task Force on Understanding and Documenting the Historical Role of the AMS in Racial Discrimination.

As the AMS continues its work to address systemic inequities in the mathematical community, we thank all those who have given generously to the 2020 Fund.
