## Representations of Algebras and Related Structures

International Conference on Representations  
of Algebras, ICRA 2020, November 9–25, 2020

*Aslak Bakke Buan, Norwegian University of Science and Technology, Trondheim, Norway, Henning Krause, Universität Bielefeld, Bielefeld, Germany, and Øyvind Solberg, Norwegian University of Science and Technology, Trondheim, Norway, Editors*

This volume contains a collection of articles devoted to representations of algebras and related topics. Distinguished experts in this field presented their work at the International Conference on Representations of Algebras in 2020.

The book reflects recent trends in the representation theory of algebras and its interactions with other central branches of mathematics, including combinatorics, commutative algebra, algebraic geometry, topology, data analysis, Lie algebras, quantum groups, homological algebra, and theoretical physics.
