

BRIN MATHEMATICS RESEARCH CENTER

The Brin Mathematics Research Center hosts workshops, summer schools, programs and distinguished lectures in all areas of pure and applied mathematics and statistics. The Brin MRC provides opportunities for the global mathematical community to interact with researchers at the University of Maryland. Launched in 2022, the Brin MRC was endowed in 2024 with a \$25 million gift from Michael and Eugenia Brin.

Workshops in Fall 2024

- Logic at Maryland
Organizers: A. Chernikov, C. Laskowski, C. Rosendal and J. Zomback
- Macroscopic Behavior of Deterministic Systems
Organizers: C. Liverani and S. Olla
- Recent Trends in Homogeneous & Teichmüller Dynamics
Organizers: F. Arana-Herrera and G. Forni
- Representation Theory and Lie Groups: Celebrating Jeffrey Adams' Career
Organizers: T. Haines, P. Mezo, A. Paul and Y. Sakellaridis
- Statistical Theory of Deep Neural Network Models
Organizer: L. Lin
- Disease Dynamics & Human Behavior
Organizers: H. Berestycki, M. Harris and J. Weitz
