The Brin Mathematics Research Center hosts workshops, summer schools, programs and distinguished lectures in all areas of pure and applied mathematics and statistics. The Brin MRC provides opportunities for the global mathematical community to interact with researchers at the University of Maryland. Launched in 2022, the Brin MRC was endowed in 2024 with a $25 million gift from Michael and Eugenia Brin.

Upcoming Workshops

• Recent Trends in Homogeneous & Teichmüller Dynamics (September 2024)
  Organizers: F. Arana-Herrera and G. Forni

• Representation Theory & Lie Groups: Celebrating Jeffrey Adams’ Career (October 2024)
  Organizers: T. Haines, P. Mezo, A. Paul and Y. Sakellaridis

• Statistical Theory of Deep Neural Network Models (November 2024)
  Organizer: L. Lin

• Disease Dynamics & Human Behavior (November 2024)
  Organizers: H. Berestycki, M. Harris and J. Weitz

• Perspectives on Moduli in Algebraic Geometry (January 2025)
  Organizers: D. Bejleri, K. Ascher and K. DeVleming

• Hamiltonian Dynamics at Maryland (February 2025)
  Organizers: B. Fayad, D. Dolgopyat and J. Paradela
