

Support the

AMS 2020 FUND

as we work toward a fully inclusive mathematics profession.

The AMS established the 2020 Fund as a permanent endowment to support and promote the scholarship of Black mathematicians. Since its creation, donors have made more than 1,500 gifts to the fund.

In addition to supporting the Claytor-Gilmer Fellowship, the 2020 Fund's initiatives are informed by the *Task Force Report on Understanding and Documenting the Historical Role of the AMS in Racial Discrimination*.

As the AMS continues its work to address systemic inequities in the mathematical community, we thank all those who have given generously to the 2020 Fund.
