

PROCEEDINGS
OF THE
AMERICAN MATHEMATICAL SOCIETY

EDITED BY

R. P. BOAS P. R. HALMOS
ALEX ROSENBERG E. H. SPANIER

WITH THE COÖPERATION OF

RICHARD BELLMAN	FELIX BROWDER	E. E. FLOYD
AVNER FRIEDMAN	I. N. HERSTEIN	W. J. LEVEQUE
J. C. MOORE	DANA SCOTT	A. H. TAUB
	DANIEL ZELINSKY	

VOLUME 12, NUMBER 2
APRIL, 1961

PUBLISHED BY THE SOCIETY
MENASHA, WIS., AND PROVIDENCE, R. I.

Journals Published by the American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and details of its meetings. It contains some of the officially invited addresses presented before the Society, research announcements and problems, and reviews of advanced mathematical books.

One volume of six numbers is planned for 1961. The subscription price is \$7.00. The prices of back volumes, insofar as they are available, are as follows: vols. 1-27, 29 (1894-1921, 1923), \$23.50 each; vol. 28 (1922), \$19.70; vols. 30-35 (1924-1929), \$20.00 each; vols. 36-55 (1930-1949), \$28.00 each; vols. 56-65 (1950-1960), \$14.00 each.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appeared in 1950.

Articles for insertion in the PROCEEDINGS should be typewritten, double spaced. The maximum length of an acceptable paper is 8 printed pages. (A page of the PROCEEDINGS contains an average of 400 words; a typewritten page contains an average of 300 words. A rough rule of thumb, accordingly, is that under 10 typewritten pages is probably within the allowed limit, but over 11 typewritten pages is probably not.) The greatest possible care should be taken in preparing the manuscript and if necessary The Manual for Authors published by the Society should be consulted. The authors should keep a complete copy.

Papers in algebra and number theory should be sent to ALEX ROSENBERG, Department of Mathematics, University of California, Berkeley 4, California; in probability, real variables, logic, and foundations to P. R. HALMOS, Eckhart Hall, University of Chicago, Chicago 37, Illinois; in abstract analysis to either P. R. HALMOS or ALEX ROSENBERG; in geometry and topology to E. H. SPANIER, Department of Mathematics, University of California, Berkeley 4, California; in other branches of analysis, applied mathematics, and all other fields to R. P. BOAS, Lunt Building, Northwestern University, Evanston, Illinois. All other communications to the editors should be addressed to the Managing Editor, P. R. HALMOS.

One volume of six numbers is planned for 1961. The subscription price is \$11.00. Vols. 1-11 (1950-1960) are available at the price of \$14.00 each.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer memoirs than the PROCEEDINGS.

Four volumes of three numbers each will be published in 1961. The price per volume is \$8.00. Volumes 1-36 (1900-1934) consist of four numbers each. Volumes 66-67 (1949) and 78-88 (1955-1958) consist of two numbers each. All other volumes consist of three numbers each. The prices of back volumes, insofar as they are available, are as follows: vols. 1-36 (1900-1934), \$16.00 each; vols. 37-65, 68-77 (1934-1954), \$12.00 each; vols. 66, 67, 78-97 (1949, 1955-1960), \$8.00 each.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

The publication of MATHEMATICAL REVIEWS was begun in 1940. Starting in 1961, it appears monthly, in two parts, and the price per annual volume is \$50.00. Prior to 1961 it appeared in eleven single issues. Orders for complete volumes only are accepted. Volumes 10 and 17 are not available. Volumes 1-9, 11-16, and 18-21 are available at the following prices: Vols. 1-14 (1940-1953), \$24.00 each; all other volumes \$50.00.

THE PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY is published bimonthly, in February, April, June, August, October, and December. Price per annual volume is \$11.00. Subscriptions, orders for back numbers, and inquiries in regard to nondelivery of current numbers should be addressed to the American Mathematical Society, Curtis Reed Plaza, Menasha, Wis., or 190 Hope Street, Providence 6, R. I.

Second-class postage paid at Menasha, Wisconsin. Authorization is granted under the authority of the act of August 24, 1912, as amended by the act of August 4, 1947 (sec. 34.21, P. L. & R.). Acceptance for mailing at the special rate of postage provided for in section 34.40, paragraph d., P. L. & R.

Journals Published by the American Mathematical Society

Soviet Mathematics—Doklady

This journal contains the entire pure mathematics section of the *DOKLADY AKADEMII NAUK SSSR* in translation. It appears six times a year, each bimonthly issue corresponding to one volume of the Soviet *DOKLADY*. (The *DOKLADY AKADEMII NAUK SSSR* is issued three times a month, six issues constituting a volume.)

Rates per annual volume are as follows: Domestic subscriptions, \$17.50; foreign subscriptions, \$20.00. Single issues are \$5.00.

Notices of the American Mathematical Society

This journal announces the programs of the meetings of the Society. It carries the abstracts of all contributed papers presented at the meetings of the Society and publishes news items of interest to mathematical scientists.

The subscription price is \$7.00 per annual volume of 7 numbers. A single copy is \$2.00.

All communications should be addressed to the Editor, G. L. WALKER, 190 Hope Street, Providence 6, R. I. News items and insertions for each issue must be in the hands of the editor on or before the deadline for the abstracts of the papers to be presented in the meetings announced in that issue. These deadlines are published regularly on the back of the table of contents.

Memoirs of the American Mathematical Society

This is a series of paperbound research tracts which are of the same general character as papers published in the *TRANSACTIONS*. An issue contains either a single monograph or a group of cognate papers. Published at irregular intervals. The latest numbers in this series are:

CONTENTS

Vol. 12, No. 2

APRIL, 1961

Whole No. 67

	Page
On functions having non-negative derivatives at the origin. By R. G. LAHA.....	175
On a class of unimodal distributions. By R. G. LAHA.....	181
On quasi-orthogonal polynomials. By DAVID DICKINSON.....	185
The solution of positive-symmetric hyperbolic systems by difference methods. By MILTON LEES.....	195
Systems-disconjugacy of a fourth-order differential equation. By J. H. BARRETT.....	205
Arithmetical notes, I. On a theorem of van der Corput. By ECKFORD COHEN.....	214
On the pseudo-group structure of analytic functions on an algebra. By H. H. JOHNSON.....	218
The polynomial derivative at a zero angle. By W. E. SEWELL.....	224
A maximal theorem. By C. S. HERZ.....	229
On the order of the difference of two meromorphic functions. By S. M. SHAH.....	234
A well posed problem for the backward heat equation. By W. L. MIRANKER.....	243
Perron-Frobenius theory and the zeros of polynomials. By H. S. WILF.....	247
Axiomatization of induced theories. By AZRIEL LÉVY.....	251
Solution to a problem of Rose and Rosser. By A. R. TURQUETTE.....	253
A generalization of Maillet's determinant and a bound for the first factor of the class number. By LEONARD CARLITZ.....	256
Some remarks on nilpotent groups with roots. By GILBERT BAUMSLAG.....	262
On some conditions for nonvanishing of determinants. By A. M. OSTROWSKI.....	268
Radical extensions of rings. By CARL FAITH.....	274
Note on the nonvanishing of $L(1)$. By S. CHOWLA and L. J. MORDELL..	283
Symmetric means and matrix inequalities. By PETER BULLEN and MARVIN MARCUS.....	285
Extreme points of polar convex sets. By R. R. PHELPS.....	291
On gradient mappings in Banach spaces. By TSUYOSHI ANDŌ.....	297
On homothetic mappings of Riemann spaces. By M. S. KNEBELMAN and K. YANO.....	300
On the interval topology of an l -group. By E. S. WOLK.....	304
Homogeneous countable connected Hausdorff spaces. By J. M. MARTIN.....	308
Some differential equations on closed manifolds. By R. A. RESTREPO.....	315
On the space of subsets of a uniform space. By A. P. ROBERTSON and WENDY ROBERTSON.....	321
Inner product spaces and the tri-spherical intersection property. By W. W. COMFORT and HUGH GORDON.....	327
Remarks on a theorem of M. Altman. By M. REICHBACH.....	330
A chainable continuum no two of whose nondegenerate subcontinua are homeomorphic. By J. J. ANDREWS.....	333
