ERRATUM TO VOLUME 24

In [1], the following corrections should be made for technical errors appearing on p. 358:

1. Line 8 (statement of theorem). For
   \[ \mu_S = \sum \{ v_1(xS \cap H) : xH \in G/H \}, \]
   substitute
   \[ \mu_S = \sum \{ v_1(xS \cap H) : x^{-1}H \in G/H \}. \]

2. Line 20 (proof of theorem). For “if \( xH = yH \)”, substitute “if \( x^{-1}H = y^{-1}H \)”. The statement and argument, as given in the original, are valid only when \( H \) is normal.
