

ERRATUM TO VOLUME 25

K. B. Laursen, *Symmetry of generalized group algebras*, Proc. Amer. Math. Soc. **25** (1970), 318–322.

E. T. Kehlet has pointed out that the proof of Lemma 4 [1] is erroneous. However, with the following adjustments the main result of [1] is restored:

Retaining the notation of [1] and with the assumptions of Lemma 4 [1] on X_1 we may conclude that X_1 is *-isomorphic with the C^* -algebra of all $n \times n$ matrices over C for some n . Consequently, Corollary 2 [2] is applicable and yields the claim of Corollary 1 [1].
