ERRATA TO VOLUME 33

On page 196, line 21, insert $\mathbb{J}$ before $. N. Smith has pointed out that Theorem 6 is only true for regular $\mu$.

Department of Mathematics, University of Toronto, Toronto, Ontario M5S 1A1, Canada

Page 461, lines 9 to 11, should read:

$$p(z) = \lambda \frac{1 + ze^{i\theta_1}}{1 - ze^{i\theta_1}} + (1 - \lambda) \frac{1 + ze^{i\theta_2}}{1 - ze^{i\theta_2}}$$

where $\lambda \in [0, 1]$ and $\theta_1, \theta_2 \in [0, 2\pi]$ are obtained from the equations

$$\lambda \frac{1 + re^{i\theta_1}}{1 - re^{i\theta_1}} + (1 - \lambda) \frac{1 + re^{i\theta_2}}{1 - re^{i\theta_2}} = Re^{i\phi}$$

and

$$\frac{1 + re^{i\theta_2}}{1 - re^{i\theta_2}} = a + e^{i(\phi - \pi)} \left( \frac{1 + re^{-i\theta_1}}{1 - re^{-i\theta_1}} - a \right).$$
