CORRIGENDUM TO
"WEAK SEQUENTIAL DENSENESS IN BANACH SPACES"

J. HOWARD

(Communicated by John B. Conway)

In [2] the proof of the theorem for (a) $\Rightarrow$ (b) is incorrect. For separable Banach spaces X, the implication (a) $\Rightarrow$ (b) is given in [3]. The nonseparable case may be reduced to the separable case based on the fact that if S is a subset of a Banach space X and $x \in \overline{S}^w$, then S has a countable subset S_0 with $x \in \overline{S_0}^w$ (Part a, Theorem 8.12.4, p. 549 of [1]). Hence the Theorem of this paper remains correct.

I wish to thank Alfred D. Andrew for this correction.
