SUBSCRIPTION INFORMATION. The 2013 subscription is for Numbers 86 and 87. Beginning in 2004, *Theory of Probability and Mathematical Statistics* is accessible from `www.ams.org/journals/`. Subscription prices for 2013 are as follows: for paper delivery, US$806 list; US$644.80 institutional member; for electronic delivery, US$766 list, US$612.80 institutional member. Upon request, subscribers to paper delivery of this journal are also entitled to receive electronic delivery. For paper delivery, subscribers outside the United States and India must pay a postage surcharge of US$7; subscribers in India must pay a postage surcharge of US$13. Expedited delivery to destinations in North America US$10; elsewhere US$25. Subscription renewals are subject to late fees. See `www.ams.org/journal-faq` for more journal subscription information.

BACK NUMBER INFORMATION. For back issues see `www.ams.org/bookstore`.

Subscriptions and orders should be addressed to American Mathematical Society, P.O. Box 845904, Boston, MA 02284-5904, USA. *All orders must be accompanied by payment.* Other correspondence should be addressed to 201 Charles Street, Providence, RI 02904-2294, USA.

COPYING AND REPRINTING. Material in this journal may be reproduced by any means for educational and scientific purposes without fee or permission with the exception of reproduction by services that collect fees for delivery of documents and provided that the customary acknowledgment of the source is given. This consent does not extend to other kinds of copying for general distribution, for advertising or promotional purposes, or for resale. Requests for permission for commercial use of material should be addressed to the Acquisitions Department, American Mathematical Society, 201 Charles Street, Providence, Rhode Island 02904-2294, USA. Requests can also be made by e-mail to `reprint-permission@ams.org`.

Theory of Probability and Mathematical Statistics (ISSN 0094-9000) is published by the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA and is mailed from Providence, Rhode Island. Postmaster: Send address changes to Theory of Probability and Mathematical Statistics, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA.

CONTENTS

V. V. Buldygin, O. I. Klesov, and J. G. Steinebach, Asymptotic properties of absolutely continuous functions and strong laws of large numbers for renewal processes 1

A. Yu. Veretennikov and A. M. Kulik, Diffusion approximation of systems with weakly ergodic Markov perturbations. I 13

Rita Giuliano and Claudio Macci, On the asymptotic behavior of a sequence of random variables of interest in the classical occupancy problem 31

V. Doroshenko, Yu. Mishura, and O. Banna, The distance between fractional Brownian motion and the subspace of martingales with "similar" kernels .. 41

K. Yu. Zhernovyĭ, Busy period and stationary distribution for the queueing system $\mathbf{M}^{\theta}/\mathbf{G}/\mathbf{1}/\infty$ with a threshold switching between service modes 51

M. V. Kartashov and V. V. Golomozyĭ, Maximal coupling procedure and stability of discrete Markov chains. II 65

I. H. Krykun, Functional law of the iterated logarithm type for a skew Brownian motion 79

M. V. Lebid' and G. M. Torbin, Singularity and fine fractal properties of a certain class of infinite Bernoulli convolutions with an essential intersection 99

M. M. Luz and M. P. Moklyachuk, Interpolation of functionals of stochastic sequences with stationary increments 117

V. I. Masol and L. O. Romashova, Estimates for the probability that a system of random equations is solvable in a given set of vectors over the field $GF(3)$ 135

S. A. Mel'nik, The dynamics of the mean mass of a solution of the stochastic porous media equation 153

A. G. Moroz, Properties of the optimal stopping domain in the Lévy model ... 163

O. I. Ponomarenko, Discrete representations of second order random functions. II 171

V. Radchenko, Riemann integral of a random function and the parabolic equation with a general stochastic measure 185

G. M. Shevchenko and T. O. Shalaiko, Approximation of random variables by functionals of the increments of a fractional Brownian motion 199

UKRAINIAN CONTENTS*

В. В. Булдигін, *О. І. Клесов*, *Й. Г. Штайнебах*
Асимптотичні властивості абсолютно неперервних функцій та ПЗВЧ для процесів відновлення 1

А. Ю. Веретенников, *А. М. Кулик*
Диффузионная аппроксимация систем со слабо эргодическими марковскими возмущениями I 12

Rita Giuliano, *Claudio Macci*
On the asymptotic behavior of a sequence of random variables of interest in the classical occupancy problem 28

В. Дорошенко, *Ю. Мішура*, *О. Банна*
Відстань дробового броунівського руху до підпростору мартингалів з "подібними" ядрами 38

К. Ю. Жерновий
Період зайнятості та стаціонарний розподіл для системи $\mathbf{M}^{\theta}/G/1/\infty$ з пороговим перемиканням режимів обслуговування 46

М. В. Карташов, *В. В. Голомозий*
Максимальне склеювання та стійкість дискретних ланцюгів Маркова, II 58

І. Г. Крикун
Функціональний закон типу повторного логарифма для косого броунівського руху 71

М. В. Лебідь, *Г. М. Торбін*
Сингулярність та тонкі фрактальні властивості одного класу нескінченних згорток Бернуллі з суттєвими перекриттями 89

М. М. Луз, *М. П. Моклячук*
Інтерполяція функціоналів від стохастичних послідовностей зі стаціонарними приростами 105

В. І. Масол, *Л. О. Ромашова*
Оцінки ймовірності існування розв'язків системи випадкових рівнянь у заданій множині векторів над полем $\mathbf{GF}(3)$ 120

С. А. Мельник
Динамика средней массы решения стохастического уравнения пористой среды 136

А. Г. Мороз
Властивості області оптимальної зупинки в моделі Леві 144

О. І. Пономаренко
Дискретні зображення випадкових функцій другого порядку II 152

V. Radchenko
Riemann integral of a random function and the parabolic equation with a general stochastic measure 163

Г. М. Шевченко, *Т. О. Шалайко*
Наближення випадкових величин функціоналами від приростів дробового броунівського руху 176

*The American Mathematical Society scheme for transliteration of Cyrillic may be found at the end of index issues of *Mathematical Reviews*.
