SUBMISSION INFORMATION. All submissions to the journal should be sent to journal.tims@gmail.com. For more information see http://probability.univ.kiev.ua/tims/.

SUBSCRIPTION INFORMATION. The 2021 subscription is for Numbers 104 and 105.

Note: Starting with Issue 102, the Theory of Probability and Mathematical Statistics is published jointly by Taras Shevchenko National University of Kyiv and the American Mathematical Society as the original English-language journal.

Subscription prices for 2021 are as follows:

Paper format with free electronic access: List: US$1060.00; Electronic only: List: US$1007.00.

Upon request, subscribers to paper delivery of this journal are also entitled to receive electronic delivery. Subscription renewals are subject to late fees. See www.ams.org/journal-faq for more journal subscription information.

BACK NUMBER INFORMATION. For back issues see www.ams.org/backvols.

Subscriptions and orders should be addressed to American Mathematical Society, P.O. Box 84904, Boston, MA 02284-5904, USA. All orders must be accompanied by payment. Other correspondence should be addressed to 201 Charles Street, Providence, RI 02904-2213, USA.

COPYING AND REPRINTING. Individual readers of this publication, and nonprofit libraries acting for them, are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews, provided the customary acknowledgment of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication is permitted only under license from the American Mathematical Society. Requests for permission to reuse portions of AMS publication content are handled by the Copyright Clearance Center. For more information, please visit www.ams.org/publications/pubpermissions.

Excluded from these provisions is material in articles for which the author holds copyright. In such cases, requests for permission to use or reprint should be addressed directly to the author(s). (Copyright ownership is indicated in the notice in the lower right-hand corner of the first page of each article.)

Theory of Probability and Mathematical Statistics (ISSN 0094-9000) is published by Taras Shevchenko National University of Kyiv, Ukraine, and the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213, USA and is mailed from Providence, Rhode Island. Postmaster: Send address changes to Theory of Probability and Mathematical Statistics, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2213, USA.

This journal is abstracted/indexed in SCOPUS®, Web of Science Core Collection, Zentralblatt Math, Mathematical Reviews, Statistical Methods and Applications, and Google Scholar.

This journal is archived in Portico and in CLOCKSS.

Printed in the United States of America.

The paper used in this journal is acid-free and falls within the guidelines established to ensure permanence and durability.
# CONTENTS

E. Scalas and B. Toaldo, Limit theorems for prices of options written on semi-Markov processes ................................. 3  
D. Ferger, On the locations of maxima and minima in a sequence of exchangeable random variables .......................... 35  
S. Tappe, The dual Yamada–Watanabe theorem for mild solutions to stochastic partial differential equations .................. 51  
V. Bohun and A. Marynych, On the local time of a recurrent random walk on $\mathbb{Z}^2$ ............................................. 69  
F. Kühn and R. L. Schilling, For which functions are $f(X_t) - \mathbb{E}f(X_t)$ and $g(X_t)/\mathbb{E}g(X_t)$ martingales? .................. 79  
Z. Ma and C. Ma, Series representations and simulations of isotropic random fields in the Euclidean space .................. 93  
C. Soize, Stochastic elliptic operators defined by non-Gaussian random fields with uncertain spectrum ............................ 113  
D. Silvestrov, Convergence in distribution for randomly stopped random fields ................................................. 137  
A. V. Ivanov and I. M. Savych, On the least squares estimator asymptotic normality of the multivariate symmetric textured surface parameters .......................... 151
