

**TRANSACTIONS**  
OF THE  
**AMERICAN MATHEMATICAL SOCIETY**

EDITED BY

DUNHAM JACKSON

FRANCIS R. SHARPE

HOWARD HAWKS MITCHELL

WITH THE COÖPERATION OF

RAYMOND W. BRINK  
WILLIAM C. GRAUSTEIN  
AUBREY J. KEMPNER  
GEORGE Y. RAINICH  
CHARLES H. SISAM

EDWARD W. CHITTENDEN  
OLIVE C. HAZLETT  
JOHN R. KLINE  
JOSEPH F. RITT  
JACOB D. TAMARKIN

JESSE DOUGLAS  
EINAR HILLE  
CHARLES N. MOORE  
CAROLINE E. SEELY  
J. H. M. WEDDERBURN

VOLUME 32  
1930

PUBLISHED BY THE SOCIETY  
MENASHA, WIS., AND NEW YORK

1930

# TABLE OF CONTENTS

VOLUME 32, 1930

	PAGE
AGNEW, R. P., of Ithaca, N. Y. The behavior of bounds and oscillations of sequences of functions under regular transformations . . . . .	669
ALBERT, A. A., of New York, N. Y. New results in the theory of normal division algebras . . . . .	171
BAMFORTH, F. R., of Ithaca, N. Y. Surface transformations . . . . .	417
BAMFORTH, F. R., and BIRKHOFF, G. D., of Cambridge, Mass. Divergent series and singular points of ordinary differential equations . . . . .	114
BELL, E. T., of Pasadena, Calif. Numbers of representations of integers in a certain triad of ternary quadratic forms . . . . .	1
——— Analytic functions in the irregular field of all numerical functions . . . . .	869
BIRKHOFF, G. D., and BAMFORTH, F. R., of Cambridge, Mass. Divergent series and singular points of ordinary differential equations . . . . .	114
CALUGARÉANO, G., of Bucarest, Roumania. On differential equations admitting polygenic integrals . . . . .	110
CARLITZ, L., of Philadelphia, Pa. On Galois fields of certain types . . . . .	451
COOK, A. J., of Edmonton, Canada. Pairs of rectilinear congruences with generators in one-to-one correspondence . . . . .	31
DICKSON, L. E., of Chicago, Ill. Construction of division algebras . . . . .	319
DYE, L. A., of Ithaca, N. Y. Involutorial transformations in $S_3$ of order $n$ with an $(n-1)$ -fold line . . . . .	251
EARL, J. M., of Iowa City, Iowa. Polynomials of best approximation on an infinite interval . . . . .	888
ENGSTROM, H. T., of New Haven, Conn. On the common index divisors of an algebraic field . . . . .	223
——— The theorem of Dedekind in the ideal theory of Zolotarev . . . . .	879
FÉRAUD, L., of Cambridge, Mass. On Birkhoff's Pfaffian systems . . . . .	817
GHOSH, S., of Calcutta, India. On the solution of the equations of elastic equilibrium suitable for elliptic boundaries . . . . .	47
GILLESPIE, D. C., and HURWITZ, W. A., of Ithaca, N. Y. On sequences of continuous functions having continuous limits . . . . .	527
GOURIN, E., of New York, N. Y. On irreducible polynomials in several variables which become reducible when the variables are replaced by powers of themselves . . . . .	485
GROVE, V. G., of East Lansing, Mich. A canonical form of Green's projective analogue of the Gauss differential equations . . . . .	473
HAZLETT, O. C., of Urbana, Ill. On division algebras . . . . .	912
HOTELLING, H., of Stanford University, Calif. The consistency and ultimate distribution of optimum statistics . . . . .	847
HURWITZ, W. A., and GILLESPIE, D. C., of Ithaca, N. Y. On sequences of continuous functions having continuous limits . . . . .	527
LAMSON, K. W., of Bethlehem, Pa. Some differential and algebraic consequences of the Einstein field equations . . . . .	709

	PAGE
LANE, E. P., of Chicago, Ill. Hypergeodesic mapping of a surface on a plane . . . . .	558
——— Integral surfaces of pairs of partial differential equations of the third order . . . . .	782
LANGER, R. E., of Madison, Wis. The boundary problem associated with a differential system rational in the parameter . . . . .	238
LA PAZ, L., of Chicago, Ill. An inverse problem of the calculus of variations for multiple integrals . . . . .	509
LATIMER, C. G., of Lexington, Ky. On certain identities in theta functions . . . . .	832
MAIER, W. E., of Chicago, Ill. Elementary properties of the $t_r$ -functions . . . . .	905
MARDEN, M., of Cambridge, Mass. On the zeros of linear partial fractions . . . . .	81
——— On the zeros of certain rational functions . . . . .	658
MOORE, C. N., of Cincinnati, Ohio. On Gibbs's phenomenon for the developments in Bessel's functions . . . . .	409
MORSE, M., of Cambridge, Mass. The foundations of a theory of the calculus of variations in the large in $m$ -space (second paper) . . . . .	599
POOR, V. C., of Ann Arbor, Mich. Residues of polygenic functions . . . . .	216
POST, E. L., of New York, N. Y. Generalized differentiation . . . . .	723
REID, W. T., of Austin, Texas. Properties of solutions of an infinite system of ordinary linear differential equations of the first order with auxiliary boundary conditions . . . . .	284
RITT, J. F., of New York, N. Y. On a certain ring of functions of two variables . . . . .	155
——— Manifolds of functions defined by systems of algebraic differential equations . . . . .	569
ROBERTS, J. H., of Austin, Texas. Concerning non-dense plane continua . . . . .	6
ROTH, W. E., of Milwaukee, Wis. On the unilateral equation in matrices . . . . .	61
TAMARKIN, J. D., of Providence, R. I. The notion of the Green's function in the theory of integro-differential equations . . . . .	860
TRJITZINSKY, W. J., of Bethlehem, Pa. On composition of singularities . . . . .	196
VANDIVER, H. S., of Austin, Texas. On power characters of singular integers in a properly irregular cyclotomic field . . . . .	391
WALSH, J. L., of Cambridge, Mass. Boundary values of an analytic function and the Tchebycheff method of approximation . . . . .	335
——— On the overconvergence of sequences of polynomials of best approximation . . . . .	794
WARD, L. E., of Iowa City, Iowa. Series associated with certain irregular third-order boundary value problems . . . . .	544
WARD, M., of Pasadena, Calif. Postulates for the inverse operations in a group . . . . .	520
WEISS, M. J., of Chicago, Ill. The limit of transitivity of a substitution group . . . . .	262

TABLE OF CONTENTS

v

	PAGE
WHYBURN, G. T., of Austin, Texas. Cut points of connected sets and of continua . . . . .	147
——— On the structure of connected and connected im kleinen point sets . . . . .	926
WHYBURN, W. M., of Los Angeles, Calif. Functional properties of the solutions of differential systems . . . . .	502
WILDER, R. L., of Ann Arbor, Mich. A converse of the Jordan-Brouwer separation theorem in three dimensions . . . . .	632
ERRATA, volumes 26 and 31 . . . . .	944
