
Page 55, line 4. Instead of $f'(t) = \mu$ read $|f'(t)| = \mu$.

Page 55. In the fourth line of the four line display replace $-$ by $+$.

Page 62, Lemma 4.4. Property (iii) should read, *if $\phi$ is any function in $CC$ which is applicable to $f$, then $\phi$ is applicable to $g$ and · · · ·*.

Also in Lemma 4.4, the last member of the first line which defines $\Lambda(t)$ should read $|\phi : f(t) - \phi : f(t-)|$.

Page 64. In the statement of Lemma 4.5 and Corollary 4.1, replace $g$ by $f$.

Page 74. In the second line of the statement of Theorem 5.8, replace $[0, 1]$ by $[0, t]$.

Page 80. The displayed line in the statement of Theorem 8.2 should be the same as the corresponding line in Theorem 8.3.

In line 1, p. 274, there is a disturbing misprint. Theorem 7 is a consequence of Theorem 1, not of Theorem 5 as stated. It is essential that the conditions for Theorem 5 are not satisfied in this case. A simple calculation shows however that the conditions for Theorem 1 are fulfilled.
