TRANSACTIONS OF THE AMERICAN MATHEMATICAL SOCIETY

THIS JOURNAL is devoted entirely to research in pure and applied mathematics, and includes, in general, longer papers than those in the PROCEEDINGS.

PREPARATION OF THE MANUSCRIPT. All papers should be typewritten double-spaced, and two copies should be sent to the appropriate editor. The author should keep a complete copy.

FORM OF MANUSCRIPT. The first page should consist of a descriptive title, followed by an abstract which summarizes the article in language suitable for workers in the general field (algebra, analysis, etc.). The descriptive title should be short, but informative; useless or vague phrases such as "Some remarks about" or "concerning" should be avoided. Also avoid proper names unless mathematical usage associates them with the work. The abstract should be at least one complete sentence, and at most 300 words, with the upper limit primarily for longer papers. Included with the footnotes to your paper, but placed before the first footnote, there should be first the AMS (MOS) subject classification numbers representing the primary and secondary subjects of the article, which may be followed by a list of key words and phrases describing the subject matter of the article and taken from it. The AMS (MOS) Subject Classification Scheme (1970) with instructions for its use can be found as an appendix to Mathematical Reviews, Index to Volume 39 (June 1970). See the June 1970 Notices for more details, as well as illustrative examples.

SUBMISSION OF MANUSCRIPT. See the inside back cover of this journal.

GALLEY PROOF. When a paper with more than one author has been accepted for publication, only one set of galley proof will be sent. Joint authors should, therefore, indicate on the original manuscript which of them should receive galley proof in the event that the manuscript is accepted for publication.

PUBLICATION CHARGES. The research journals of the American Mathematical Society carry a page charge of $40.00 per page to help defray the cost of publication. This amount is charged to the institution or to a contract supporting the research reported in the published paper. The publication charge policy of the United States Federal Council for Science and Technology (FCST) is reported on page 112 of the February, 1975 issue of the NOTICES of the American Mathematical Society. In no case is the author personally responsible for paying the page charge, nor is acceptance of his paper for publication dependent upon payment of the page charge.

BACKLOG. 1400 pages. Two-thirds of the papers currently being accepted by the editors will be published in 18-20 months.

SUBSCRIPTION INFORMATION. Subscription prices for Volumes 225-234 (1977) are list $230.00, member $115.00.

Back number prices per volume for Volumes 78-134 (1955-1968) are list $18.00, member $13.50; Volumes 135-214 (1969-1975), list $30.00, member $22.50; Volumes 215-224 (1976), list $32.00, member $24.00. Volumes 1-77 (1900-1954) may be ordered through Johnson Reprint Corporation, 111 Fifth Avenue, New York, New York 10003. Volumes 1-214 (1900-1975) are available on 35 mm microfilm from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan 48106.

MEMOIRS OF THE AMERICAN MATHEMATICAL SOCIETY

This bimonthly journal is devoted to research in pure and applied mathematics of much the same nature as appears in TRANSACTIONS. An issue consists of one or more separately bound research tracts for which the author(s) has provided reproduction copy. Prior to 1975 this was published as a monograph series. The editorial committee is identical with that for the TRANSACTIONS so that papers intended for publication in this series should be addressed to one of the editors listed on the inside back cover.

Published monthly by the American Mathematical Society. Subscriptions and orders for publications of the American Mathematical Society should be addressed to American Mathematical Society, P. O. Box 1571, Annex Station, Providence, Rhode Island 02901. All orders must be accompanied by payment. Other correspondence should be addressed to P. O. Box 6248, Providence, Rhode Island 02940.

Second-class postage paid at Providence, Rhode Island, and additional mailing offices.

Postage No. 637100

SUBMISSION OF MANUSCRIPT

Two copies of mathematical papers intended for publication in the TRANSACTIONS or the MEMOIRS should be addressed to one of the editors. Subjects, and the editors associated with them, follow:

Real analysis (excluding harmonic analysis) and applied mathematics to ROBERT T. SEELEY, Department of Mathematics, University of Massachusetts—Boston, Harbor Campus, Boston, MA 02125

Harmonic and complex analysis to HUGO ROSSI, Department of Mathematics, University of Utah, Salt Lake City, UT 84112

Abstract analysis to W. A. J. LUXEMBURG, Department of Mathematics, California Institute of Technology, Pasadena, California 91125

Algebra and number theory (excluding universal algebras) to STEPHEN S. SHATZ, Department of Mathematics, University of Pennsylvania, Philadelphia, PA 19174

Logic, foundations, universal algebras and combinatorics to SOLOMON FEFERMAN, Department of Mathematics, Stanford University, Stanford, CA 94305

Topology to PHILIP T. CHURCH, Department of Mathematics, Syracuse University, Syracuse, NY 13210

Global analysis and differential geometry to VICTOR W. GUilleMIN, Department of Mathematics, Massachusetts Institute of Technology, Cambridge, Massachusetts 02139

Probability and statistics to DANIEL W. STROOCK, Department of Mathematics, University of Colorado, Boulder, CO 80302

All other communications to the editors should be addressed to the Managing Editor, PHILIP T. CHURCH.
