#### **Information for Subscribers**

The journal is published quarterly in one volume per year, with issues numbered serially since Volume 1, Number 1. The subscription price is \$20.00. All back volumes are available. For Volumes 1–19 (1943–1965), prices are \$20.00 per volume; for Volumes 20–23 (1966–1969), \$24.00 per volume and Volumes 24–25 (1970–1971), \$30.00 per volume.

### **Unpublished Mathematical Tables**

The editorial office of the journal maintains a repository of Unpublished Mathematical Tables (UMT). When a table is deposited in the UMT repository a brief summary of its contents is published in the section *Reviews and Descriptions of Tables and Books*. Upon request, the chairman of the editorial committee will supply copies of any table for a nominal cost per page.

### **Information for Contributors**

Manuscripts should be typewritten double-spaced in the format used by the journal. For journal abbreviations, see the latest *Mathematical Reviews* volume index. An author should submit the original and one copy of the manuscript and retain one copy. The author may suggest an appropriate editor for his paper. It is recommended that the author acquaint himself with the pertinent material contained in "Information for Contributors to Mathematics of Computation" and "Manual for Authors," both of which are available upon request from the American Mathematical Society. All contributions intended for publication and all books for review should be addressed to Eugene Isaacson, Chairman, Editorial Committee, Mathematics of Computation, New York University, Courant Institute of Mathematical Sciences, 251 Mercer Street, New York, New York 10012. Institutions sponsoring research reported in the journal are assessed page and microfiche charges.

Each article submitted for publication must be accompanied by a brief and reasonably self-contained abstract, and by AMS (MOS) subject classification numbers. If a list of key words and phrases is included, it will be printed as a footnote on the first page. A list of the classification numbers may be found in the Index to Mathematical Reviews, Volume 39 (June 1970).

#### **Microcard Edition**

Volumes 1-14 (1943-1960) are available on Microcards at \$39.00 for the complete set and may be purchased from Microcard Editions, Inc., 901 26th Street, N. W., Washington, D.C. 20037. James T. Martin

## Introduction to Teleprocessing

A lucid introduction to teleprocessing for the nontechnician. Consists of a synthesis of information found in the author's other books on the subject that is simplified without the omission of vital aspects. Included in the Appendix are comprehensive summaries and checklists for use in the design and selection of teleprocessing equipment. Clear diagrams throughout aid in teaching, while references to Martin's other books guide the reader to more detailed treatments.

February 1972, 256 pp., (49981-4)

# Basic Data Processing Mathematics

Relates mathematical concepts to business in teaching the fundamentals of mathematics for data processing. Designed for business majors who do not have a heavy grounding in mathematics, the book includes examples and explanations which are business-problem oriented, and retains only absolutely essential symbols and terminology. Reviews basic algebra and simplifies linear programming techniques, placing them into business contexts to facilitate understanding. Keyed Instructor's Manual available.

January 1972, 272 pp., cloth (05890-9)

# Approximate Calculation of Multiple Integrals

A well-written reference book on all theoretical and practical aspects of the subject which can be used in graduate courses and seminars. Offers new results of relating integration formulae and orthogonal polynomials and an excellent discussion of error estimates. Includes tables of almost all known formulae for many different regions and computer programs for a few select formulae.

## CONTENTS OF CONTEMPORARY MATHEMATICAL JOURNALS is now entitled CONTENTS OF CONTEMPORARY MATHEMATICAL JOURNALS and New Publications

CONTENTS OF CONTEMPORARY MATHEMATICAL JOURNALS reproduces the tables of contents of approximately 250 mathematical journals in twenty-six issues a year. Beginning with Volume 4 (1972), NEW PUBLI-CATIONS is being incorporated into CCMJ. The new material will include a list of recent and forthcoming publications, lecture notes, new journals, recent reprints, journals on microfilm, and the addresses of book and microfilm publishers. Among the journals in applied mathematics whose tables of contents are reproduced are Journal of Mathematical Physics, Quarterly of Applied Mathematics, Lectures in Applied Mathematics, Proceedings of Symposia in Applied Mathematics, Aplikace Matematiky, Izvestija Akademii Nauk Armjanskoi SSR (Serija Matematika), Quarterly Journal of Mechanics and Applied Mathematics. CCMJ & NP has now added the following important journals:

- Studies in Applied Mathematics
- · Journal of Fluid Mechanics
- · Journal of Applied Mechanics and Technical Physics
- Soviet Applied Mechanics
- · Physics of Fluids
- · Journal of the Institute of Mathematics and its Applications
- · Journal de Mécanique
- Zeitschrift f
  ür Angewandte Mathematik und Physik
- Journal of Applied Mathematics and Mechanics
- Translations of the ASME Series E, Journal of Applied Mechanics
