**SUBSCRIPTION INFORMATION:** MATHEMATICS OF COMPUTATION is published quarterly, with issues numbered serially since Volume 1, Number 1. Subscription prices for Volumes 52 and 53 (1989) are \$183.00 list; \$146.00 institutional member; \$119.00 member of CBMS organizations; \$110.00 individual AMS member. A late charge of 10% of the subscription price will be imposed upon orders received from nonmember institutions and organizations after January 1 of the subscription year. Subscribers outside the United States and India must pay a postage surcharge of \$8.00; subscribers in India must pay a postage surcharge of \$18.00. Combination paper and microfiche subscription prices are \$243.00 list; \$195.00 institutional member. Microfiche of each issue will be mailed the fastest way before the issue is mailed by the printer.

**BACK NUMBER INFORMATION:** Back number prices *per volume* are for Volumes 1-21, \$82.00 list, \$66.00 member; for Volumes 22-33, \$124.00 list, \$99.00 institutional member; for Volumes 34-43, \$82.00 list, \$64.00 institutional member; Volumes 44-45, \$113.00 list, \$90.00 institutional member; Volumes 46-47, \$127.00 list, \$102.00 institutional member; Volumes 48-49, \$135.00 list, \$108.00 institutional member; Volumes 50-51, \$136.00 list, \$109.00 institutional member. Back volumes may be purchased on microfilm or microfiche from University Microfilms International, 300 North Zeeb Road, Ann Arbor, MI 48106.

**UNPUBLISHED MATHEMATICAL TABLES:** The editorial office of the journal maintains a repository of Unpublished Mathematical Tables (UMT). When a table is deposited in the UMT repository a brief summary of its contents is published in the section *Reviews and Descriptions of Tables and Books*. Upon request, the chairman of the editorial committee will supply copies of any table for a nominal cost per page. All tables and correspondence concerning the UMT should be sent to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, IN 47907.

Orders for subscriptions and publications of the American Mathematical Society should be addressed to the AMS, P.O. Box 1571, Annex Station, Providence, RI 02901-1571. *All orders must be accompanied by payment.* Other correspondence should be addressed to P.O. Box 6248, Providence, RI 02940.

MATHEMATICS OF COMPUTATION is published quarterly by the American Mathematical Society, 201 Charles Street, Providence, RI 02940. Second-class postage is paid at Providence, Rhode Island, and additional mailing offices. Postmaster: Send address changes to Mathematics of Computation, American Mathematical Society, P.O. Box 6248, Providence, RI 02940.

<b>Supplement to “A New Lower Bound for Odd Perfect Numbers” by Richard P. Brent and Graeme L. Cohen . . . . .</b>	S7

Information for Contributors and information on Copying and Reprinting  
can be found after the supplements section at the end of this issue.

## Information for Contributors

Authors are encouraged to prepare articles electronically with the  $\text{AMS-T}_{\text{E}}\text{X}$  software package in the AMS pre-print style and to provide the article in this electronic form for typesetting. While this procedure may not reduce the interval between submission and publication of an article, generally much more accurate copy will be returned for proofreading. Production time for manuscripts prepared with other systems, even  $\text{T}_{\text{E}}\text{X}$  itself without  $\text{AMS-T}_{\text{E}}\text{X}$ , currently prevents cost-effective use of the existing electronic form. Before sending an  $\text{AMS-T}_{\text{E}}\text{X}$  manuscript for typesetting, contact the AMS Composition department for details.

Manuscripts prepared by some means other than  $\text{AMS-T}_{\text{E}}\text{X}$  should be doubled-spaced and produced in the format used by the journal. For journal abbreviations, see the latest *Mathematical Reviews* volume index. An author should submit the original and two copies of the manuscript and retain one copy. The author may suggest an appropriate editor for his paper. It is recommended that the author acquaint himself with the pertinent material contained in "A Manual for Authors of Mathematical Papers," which is available from the American Mathematical Society. All contributions intended for publication and all books for review should be addressed to Walter Gautschi, Chairman, Editorial Committee, Mathematics of Computation, Department of Computer Sciences, Purdue University, West Lafayette, Indiana 47907. The date received, which is published with the final version of an accepted paper, is the date received in the office of the Chairman of the Editorial Committee, and it is the responsibility of the author to submit manuscripts directly to this office.

Each article submitted for publication must be accompanied by a brief and reasonably self-contained abstract, and by 1980 *Mathematics Subject Classification* (1985 *Revision*) numbers. If a list of key words and phrases is included, it will be printed as a footnote on the first page. A list of the classification numbers may be found in the 1984 Subject Index to *Mathematical Reviews*. Authors are also encouraged to supply electronic addresses when available. These will be printed after the postal address at the end of each article.

## Copying and Reprinting

Individual readers of this publication, and nonprofit libraries acting for them, are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgement of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the fee of \$1.00 plus \$.25 per page for each copy be paid directly to Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale.

# The Joy of TEX

## A Gourmet Guide to Typesetting with the $\mathcal{A}\mathcal{M}\mathcal{S}$ -TEX macro package

M. D. SPIVAK

*The Joy of TEX* is the user-friendly user's guide for  $\mathcal{A}\mathcal{M}\mathcal{S}$ -TEX, an extension of TEX, which was especially designed to simplify the input of mathematical material and to format the output according to any of various preset style specifications.

There are two primary features of the TEX system: it is a computer system for typesetting technical text, especially text containing a great deal of mathematics; and it is a system for producing beautiful text, plain or technical, which is comparable to the work of the finest printers.

One of the strengths of TEX is its ability to use macros—aggregates of several commands into one—and Spivak has created a collection of macros that makes the preparation of mathematical text for printing a true *Joy*.

Chapters cover: ordinary text and control sequences, changing fonts, running a file through TEX, spacing and line breaking, symbols and accents, formatting a paper, formulas in text, displayed formulas, fractions and binomial coefficients,  $\Sigma$  and other large operators, braces and other variable size symbols, aligning equations in a display, and matrices. More special topics include exact sequences and continued fractions.

Exercises sprinkled generously through each chapter encourage the reader to sit down at a terminal and learn through experimentation. Appendixes list summaries of frequently used and more esoteric symbols as well as answers to the exercises.

## PROBABILITY THEORY SUBJECT INDEXES FROM MATHEMATICAL REVIEWS 1980-84, 1973-79, 1959-72, 1940-58

Many mathematicians have expressed a desire to have a compilation of articles, books and conference proceedings that have been reviewed in *Mathematical Reviews* available by subject area. Together with the companion index on statistics listed below, this volume is the first such compilation.

This volume gives a listing of author names and review numbers of all the items having primary or secondary classifications in probability theory for the entire 45-year span of *Mathematical Reviews* from 1940 through 1984, conveniently collected in one volume. The titles are also given for items beginning in 1959. Full bibliographic information is not provided here, but can readily be obtained using the information given here by consulting either the appropriate author indexes, the issues of *MR*, or *MathSci* (for items beginning in 1959). The classification schemes used during these years are also included at the end of the index.

This convenient index should be of great value to researchers working in the area of probability, or persons who need to consult the literature in this active field.

ISBN 0-8218-0108-2, LC 86-26462

450 pages, March 1987

List \$67, Inst. mem. \$54, Indiv. mem. \$40, Reviewer \$34

To order, please specify PROBIN/40/84MC

## STATISTICS SUBJECT INDEXES FROM MATHEMATICAL REVIEWS 1980-84, 1973-79, 1959-72, 1940-58

This volume is a companion to the volume of Probability Theory Subject Indexes mentioned above. It gives a listing of author names and review numbers of all the items having primary or secondary classifications in statistics for the entire 45-year span of *Mathematical Reviews* from 1940 through 1984, conveniently collected in one volume. The titles are also given for items beginning in 1959. Full bibliographic information is not provided here, but can readily be obtained using the information given here by consulting either the appropriate author indexes, the issues of *MR*, or *MathSci* (for items beginning in 1959). The classification schemes used during these years are also included at the end of the index.

This convenient index should be of great value to researchers working in the area of statistics, or persons who need to consult the literature in this important field.

ISBN 0-8218-0107-4, LC 86-26460

500 pages, March 1987

List \$67, Inst. mem. \$54, Indiv. mem. \$40, Reviewer \$34

To order, please specify STATIN/40/84MC

### SPECIAL OFFER

Combination offer of the two indexes above:

Probability Theory Subject Indexes from *Mathematical Reviews*, 1940-84

Statistics Subject Indexes from *Mathematical Reviews*, 1940-84

Two volume set price:

List: \$115, Inst. mem. \$92, Indiv. mem. \$69, Reviewer \$58

# Cumulative Index to Mathematics of Computation 1970-84

NOW AVAILABLE -

## Author and Subject Indexes in One Volume

This index is a sequel to the Cumulative Index to Mathematics of Computation 1943-1969. It is a compilation by author and subject of all material appearing in Mathematics of Computation during the years 1970-1984 (volumes 24-43).

The author index gives full bibliographic information on all of the items, including classification numbers. The Mathematical Reviews number and reviewer name have also been provided when available. The subject index is changed from the 1943-1969 subject index and now includes title, language, and MR number (when available) as well as author name. The codes found in the previous index are retained.

ISBN 0-8218-0093-0. ISSN 0025-5718

503 pages, September 1987

List: \$52, Inst. AMS mem. \$42, Indiv. AMS mem. \$31

To order, please specify MCOMIN/2MC

Shipping/Handling: 1st book \$2, each add'l \$1, \$25 max. By air, 1st book \$5, each add'l \$3, \$100 max. Prepayment required. Order from AMS, P.O. Box 1571, Annex Station, Providence, RI 02901-9930, or call 800-556-7774 to use VISA or MasterCard.

# ANNOUNCING...

## MathSci<sup>SM</sup> on CD-ROM

Now you can access *Mathematical Reviews (MR)* and *Current Mathematical Publications (CMP)* on CD-ROM (Compact Disc-Read Only Memory). The CD, called MathSci Disc, combines the searching features of online MathSci with the browsing ease of printed *MR*. For a fixed annual fee, MathSci Disc can be used at leisure without access charges or telephone connections.

### Semi-Annual Issue

MathSci Disc is produced by SilverPlatter<sup>®</sup> and is issued semi-annually. The first MathSci Disc became available in January 1989 and contains all the reviews and abstracts from *MR* 1985 through 1988 and over 68,000 entries from *CMP*. The July disc has all the information on the January disc plus the January-June updates. Access to current information between successive CD issues is available online from MathSci, which is updated monthly on DIALOG, BRS, and ESA.

### Easy-to-Operate

MathSci Disc is available for the IBM PC and will be available for the Macintosh. SilverPlatter's user-friendly CD software with help screens and menus makes MathSci Disc easy to use. Words and phrases in the text of the reviews and abstracts are searchable with an adjacency operator. Records can be downloaded from the CD to the hard disk for editing or for processing with T<sub>E</sub>X software into typeset form with mathematics.

### Fixed Cost

The MathSci Disc annual lease fee includes the January and the July issues of MathSci Disc, the SilverPlatter search software for the IBM or the Macintosh, the SilverPlatter search manual with a MathSci Disc chapter, and a toll-free help line.

The 1990 MathSci Disc is available at a low annual lease fee, equal to that of the printed *MR*:

Nonmembers: List price - \$3,791\*

additional leases - \$2,275\*

AMS members & MR subscribers:

AMS Members: \$3,033\*

MR subscribers: \$2,275\*

AMS members with an *MR* or first MathSci Disc subscription: \$1,820\*

Individuals at institutions subscribing to MathSci Disc can order a copy for personal use at a 90% discount: \$379\*. (\*Plus shipping & handling for addresses outside the U.S. and Canada.)

---

For more information on MathSci Disc or to receive a copy of the lease agreement, please contact Taissa Kusma, Database Services Manager, American Mathematical Society, P. O. Box 6248, Providence, RI 02940 or call (800) 556-7774 in the continental U.S. or (401) 272-9500. Internet: TTK@MATH.AMS.COM; Telex: 797192; FAX: 401-331-3842.

Introducing...

*A New Translation Journal in Mathematics*

# SUGAKU EXPOSITIONS

---

---

*Sugaku Expositions* is a new translation journal now available from the American Mathematical Society. The journal is published biannually, and began in 1988. Volume 3 is the 1990 volume. Each issue of *Sugaku Expositions* contains several expository articles, translated from the Japanese journal *Sūgaku*, which provide highly informative accounts of a variety of current areas of research.

As with all AMS publications, *Sugaku Expositions* is printed on acid-free paper to ensure long life for your mathematical collection.

ISSN 0898-9583

**1988 and 1989 Subscription Prices**

List price \$60, Institutional member \$48, Individual member \$36

To order, please specify 88SUGA/MC (Vol. 1) or 89SUGA/MC (Vol. 2)

**1990 Subscription Prices**

List price \$70, Institutional member \$56, Individual member \$42

To order, please specify 90SUGA/MC (Vol. 3)

Add for postage: for destinations outside U.S. and India \$8, to India \$13; air delivery to North America \$12, elsewhere \$17.

**Prepayment required.** Mail to: American Mathematical Society, P. O. Box 1571, Annex Station, Providence, RI 02901-1571 or call 800-556-7774 to use VISA or MasterCard.

---

**Sample Copies:** To request a sample copy, use order code SUGAEXAM/MC. Mail to AMS, ATTN: Customer Services, P. O. Box 6248, Providence, RI 02940-6248

**Note:** Subscriptions to AMS journals are sold only on a calendar year basis (January-December). Split year and multiple year subscription orders will not be accepted.
