

Call for Proposals

for Panels, Workshops, and Other Events

at the Joint Mathematics Meetings in Seattle, WA, January 5–8, 2022

Send by: **April 7, 2021** | To: jmmprog-requests@ams.org

The AMS solicits proposals for panels, workshops, and other events at the 2022 Joint Mathematics Meetings (JMM) to be held January 5–8, 2022 in Seattle, Washington.

We invite proposals that reflect the full spectrum of interests of the mathematical sciences community.

This includes topics, such as creating an inclusive atmosphere in the mathematical sciences community; teaching and learning; professional development and professional concerns; recreational mathematics; and wider issues. Events that connect communities are welcome, such as interdisciplinary workshops or collaborations between mathematical sciences researchers and mathematics education researchers.

Proposals should include:

1. Type of event (panel, workshop, other (specify))
2. Title of the event
3. Name, affiliation, and email address of each organizer, with one organizer designated as the contact person for all communication about the event
4. Information on any sponsoring organizations
5. A brief (no longer than one page) description of the proposed event
6. A *sample* list of panelists/moderator/speakers/participants whom the organizers plan to invite. (It is not necessary to have received confirmed commitments.)
7. Duration of time requested for the event

8. Preferred days
9. Conflicts to avoid (where possible)
10. If applicable, a [two-digit MSC \(Mathematics Subject Classification\) number](#) matching the topic of the event or a [three-digit code from the New Expanded Classification System](#) adopted for topics included previously in an MAA or other JMM session

Proposals for panels, workshops, and other events should be e-mailed to the JMM Program Committee (jmmprog-requests@ams.org) by **April 7, 2021.**

Further Information

Panels, workshops, and other events approved by the Program Committee will normally be allotted a 60–90-minute slot, with the exception of professional development workshops that could run for 2–6 hours. Decisions will be made on proposals after the submission deadline has passed.

The number of panels, workshops, and other events in the AMS program at the Joint Mathematics Meetings is limited, and because of the large number of high-quality proposals anticipated, not all can be accepted, nor can all scheduling requests be honored.

Please be sure to submit as detailed a proposal for your event as possible for review by the JMM 2022 Program Committee. Organizers of proposals will be notified whether their proposal has been accepted by May 25, 2021. Additional instructions and the event schedule will be sent to the contact organizer of each accepted proposal shortly after that deadline.

We look forward to receiving your submissions.
