## Call for Nominations for AWM Schafer Prize

The Executive Committee of the Association for Women in Mathematics (AWM) calls for nominations for the Alice T. Schafer Mathematics Prize, to be awarded to an undergraduate woman for excellence in mathematics. All members of the mathematical community are invited to submit nominations for the prize. The nominee may be at any level in her undergraduate career, but must either be a U.S. citizen or have a school address in the U.S. The prize will be awarded at the Joint Prize Session at the Joint Mathematics Meetings in San Antonio in January 1999.

The Schafer Prize was established in 1990 by the Executive Committee of the AWM and is named for former AWM president and one of its founding members, Alice T. Schafer, who has contributed a great deal to women in mathematics throughout her career.

A letter of nomination should include, but not be limited to, an evaluation of the nominee based on the following criteria: 1) quality of performance in advanced mathematics courses and special programs, 2) demonstration of real interest in mathematics, 3) ability for independent work in mathematics, and 4) performance in mathematical competitions at the local or national level, if any. Supporting materials (e.g., reports from summer work using mathematics, copies of talks given in student chapters, transcripts, etc.) should be enclosed with the nomination.

Send *five* complete copies of nominations for this award to: The Alice T. Schafer Award Selection Committee, Association for Women in Mathematics, 4114 Computer & Space Sciences Building, University of Maryland, College Park, Maryland 20742-2461. Nominations via e-mail or fax are not acceptable.

For further information contact the AWM by telephone at 301-405-7892 or by e-mail at [awm@math.umd.edu](mailto:awm@math.umd.edu). The nomination deadline is **September 15, 1998**.

## Job Seekers List on e-MATH

Beginning April 1, the AMS Job Seekers List will be reactivated on e-MATH at <http://www.ams.org/jobseekers/>. This list of names and contact information is intended to assist employers who need, late in the hiring season, to go back to applications that may have been received months ago and who therefore need a central source of information about which applicants are still on the job market. Job seekers currently on the market for academic positions in mathematics who have not accepted a position yet should enter their contact information into the list directly from the Web site. The list will remain active until late summer.

## Correction

The March 1998 issue of the *Notices* carried an article entitled "The Demise of the Young Scholars Program". The article mentioned a program at Michigan State University that had received funding from the Young Scholars and Summer Science Training programs of the National Science Foundation. The article incorrectly stated that Gail Richmond of Michigan State has run this program since 1959. The program has been in existence since 1959, and Professor Richmond has been its director since 1987.

The announcement about the 1998 Steele Prizes, which appeared in the April 1998 *Notices*, presented an incomplete list of the members of the prize selection committee. Bertram Kostant and Marc Rieffel were inadvertently omitted from the list.

The *Notices* regrets these errors.
