

# MathTime Professional Fonts

The *MathTime Professional II* Fonts (MTPro2) are becoming the standard for mathematics publishing. Designed by **Michael Spivak**, the fonts are used by numerous book and journal publishers. MTPro2 fonts are designed to be used with Times Roman text fonts and other classic fonts, and will work with any $\text{T}_\text{E}\text{X}$  or  $\text{L}^\text{A}\text{T}_\text{E}\text{X}$  system.

**MathTime Professional fonts,  
Complete set, \$79 (academic)**

**MathTime Professional fonts,  
Lite set, FREE**

For more information and samples, and for a list of publishers who use MTPro2, see [www.pctex.com](http://www.pctex.com).

$$\sqrt{\sum_{i=1}^n \vartheta^i + \frac{\alpha^{\beta\gamma} \delta^{\epsilon\zeta} \eta^{\theta\kappa} + \overline{AAAAA} + \overline{A\mathfrak{A}\mathfrak{A}\mathfrak{A}\mathfrak{A}}}{\lambda^{\mu\nu} \xi^{\pi\rho} \phi^{\psi\omega} + \overline{RRRRR} + \overline{R\mathfrak{R}\mathfrak{R}\mathfrak{R}\mathfrak{R}}}}$$

## **PCT $\text{E}\text{X}$ 6 -The Integrated $\text{L}^\text{A}\text{T}_\text{E}\text{X}$ Environment**

PCT $\text{E}\text{X}$  for Windows provides a complete, integrated  $\text{L}^\text{A}\text{T}_\text{E}\text{X}$  and  $\text{T}_\text{E}\text{X}$  system for professional typesetting of books, technical journals, and other documents. PCT $\text{E}\text{X}$  provides the author with dozens of productivity aids to assist in formatting  $\text{L}^\text{A}\text{T}_\text{E}\text{X}$  documents. The Graphics inclusion wizard, for example, allows easy placement of graphics and figures in documents.

**PCT $\text{E}\text{X}$  6 Professional, \$79 (academic)**

**PCT $\text{E}\text{X}$  6 Professional upgrade, \$49 (academic)**

### **New! $\text{L}^\text{A}\text{T}_\text{E}\text{X}$ Quick Start**

*L<sup>A</sup>T<sub>E</sub>X Quick Start* is a guide to using  $\text{L}^\text{A}\text{T}_\text{E}\text{X}$  for the beginner. Using hands-on projects it shows how to format a simple article, a slide presentation, an AMS math article, and more. Comes with sample projects, videos, and an evaluation license of PCT $\text{E}\text{X}$ . \$39.95
