

Director of Education and Diversity

Division of Meetings and Professional Services

The American Mathematical Society (AMS) invites applications for the position of **Director of Education and Diversity**. This new position is focused on graduate education in the mathematical sciences, the preparation of students to enter graduate programs, mentoring of students for success in graduate school, and the promotion of diversity and inclusiveness at the graduate level.

About the AMS: The AMS, founded in 1888 to further the interests of mathematical research and scholarship, serves the national and international community through its publications, meetings, advocacy and other programs supporting professionals in the mathematical sciences. The Society supports mathematical education at all levels and advances the status of the profession of mathematics, encouraging and facilitating full participation of all individuals.

Responsibilities: The Director of Education and Diversity provides leadership for the Society's programs supporting education. Primary goals for the position are to improve the students' preparation and success rate in graduate programs leading to an advanced degree in the mathematical sciences, especially for those from underrepresented groups, including women. The director is expected to work closely with the AMS Committee on Education, with AMS membership and professional program activities, and with academic departments at the undergraduate and graduate levels toward these goals. The responsibilities include identifying opportunities for external funding and overseeing the preparation of funding proposals to achieve these goals.

Experience and Qualifications: Significant academic and administrative experience and familiarity with Ph.D. programs in the mathematical sciences. A candidate for the position should have an earned doctorate in a mathematical science (mathematics, applied mathematics, statistics or theoretical computer science, for example). Experience with programs that help women or other underrepresented groups succeed in doctoral programs in a mathematical science is desirable.

This is a full-time position at the AMS headquarters in Providence, with a starting date of January 1, 2016. Salary will be commensurate with experience.

Applications: Applications must include a curriculum vitae and a letter describing the applicant's administrative and academic experience and his or her interest in the position. Nominations and applications should be sent to:
