

PROCEEDINGS
OF THE
AMERICAN MATHEMATICAL SOCIETY

EDITED BY

R. P. BOAS

P. R. HALMOS

IRVING KAPLANSKY

HANS SAMELSON

WITH THE COÖPERATION OF

RAOUL BOTT

PAUL CIVIN

EDWIN HEWITT

R. V. KADISON

ERWIN KLEINFELD

JACOB KOREVAAR

M. O. READE

I. M. SINGER

R. M. THRALL

JOHN WERMER

VOLUME 9, NUMBER 2

APRIL, 1958

PUBLISHED BY THE SOCIETY
MENASHA, WIS., AND PROVIDENCE, R. I.

Journals Published by the American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and details of its meeting. It contains some of the officially invited addresses presented before the Society, research announcements and problems, and reviews of advanced mathematical books.

One volume of six numbers is planned for 1958. The subscription price is \$7.00. The prices of back volumes, insofar as they are available, are as follows: vols. 1-27, 29 (1894-1921, 1923), \$23.50 each; vol. 28 (1922), \$19.70; vols. 30-35 (1924-1929), \$20.00 each; vols. 36-55 (1930-1949), \$28.00 each; vols. 56-63 (1950-1957), \$14.00 each.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appeared in 1950.

Articles for insertion in the PROCEEDINGS should be typewritten, double spaced, and the manuscript should not exceed 12 pages. The greatest possible care should be taken in preparing the manuscript and if necessary The Manual for Authors published by the Society should be consulted. The authors should keep a complete copy.

Papers in algebra and number theory should be sent to IRVING KAPLANSKY, Eckhart Hall, University of Chicago, Chicago 37, Ill.; in probability, real variables, logic and foundations to P. R. HALMOS, Institute for Advanced Study, Princeton, New Jersey (until June 1, 1958; thereafter to Eckhart Hall, University of Chicago, Chicago 37, Ill.); in abstract analysis to either P. R. HALMOS or IRVING KAPLANSKY; in geometry and topology to HANS SAMELSON, Department of Mathematics, University of Michigan, Ann Arbor, Mich.; in other branches of analysis, applied mathematics and all other fields to R. P. BOAS, Lunt Building, Northwestern University, Evanston, Ill. All other communications to the editors should be addressed to the managing editor, IRVING KAPLANSKY.

One volume of six numbers is planned for 1958. The subscription price is \$11.00. Vols. 1-8 (1950-1957) are available at the price of \$14.00 each.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer memoirs than the PROCEEDINGS.

Three volumes of two numbers each will be published in 1958. The price per volume is \$8.00. Volumes 1-36 (1900-1934) consist of four numbers each. Volumes 66-67 (1949) and 78-84 (1955-1957) consist of two numbers each. All other volumes consist of three numbers each. The prices of back volumes, insofar as they are available, are as follows: vols. 1-36 (1900-1934), \$16.00 each; vols. 37-65, 68-77 (1934-1954), \$12.00 each; vols. 66, 67, 78-86 (1949, 1955-1957), \$8.00 each.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

The publication of MATHEMATICAL REVIEWS was begun in 1940. It appears monthly, excepting July, and the price per annual volume is \$35.00. Orders for complete volumes only are accepted. Volumes 10 and 17 are not available. Volumes 1-9, 11-16 and 18 are available at the following prices: Vols. 1-2 (1940-1941), \$24.00 each; all other volumes \$36.00.

THE PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY is published bimonthly, in February, April, June, August, October, and December. Price per annual volume is \$11.00. Subscriptions, orders for back numbers, and inquiries in regard to nondelivery of current numbers should be addressed to the American Mathematical Society, 450 Ahnaip Street, Menasha, Wis., or 190 Hope Street, Providence 6, R. I.

Entered as second-class matter at the post office at Menasha, Wisconsin. Authorization is granted under the authority of the act of August 24, 1912, as amended by the act of August 4, 1947 (sec. 34.21, P. L. & R.). Acceptance for mailing at the special rate of postage provided for in section 35.40, paragraph d., P. L. & R.

The price to members of the American Mathematical Society is 25% less than list.
Volumes which are not listed above are out of print.

CONTENTS

Vol. 9, No. 2

APRIL, 1958

Whole No. 50

	Page
A boundary condition for the vanishing of n holomorphic functions in complex n -space. By J. J. KOHN.....	175
Homotopy equivalence of fiber bundles. By M. L. CURTIS and R. LASHOF.....	178
On the complex form of the Poincaré lemma. By H. K. NICKERSON..	183
Sur la correspondance par parallélisme de deux surfaces. By P. DRĂGILĂ	189
Existence and uniqueness of flows behind three-dimensional stationary and pseudo-stationary shocks. By R. P. KANWAL.....	201
Note on a paper of Civin and Yood. By L. E. BAUM.....	207
Automorphisms of the two-dimensional general linear group over a Euclidean ring. By JOSEPH LANDIN and IRVING REINER.....	209
On free products. By A. KARRASS and D. SOLITAR.....	217
Galois extensions in which every element with regular trace is a normal basis element. By C. C. FAITH.....	222
Remark on automorphisms of groups. By MAURICE AUSLANDER.....	229
Some remarks on the multiplicative group of a sfield. By EUGENE SCHENKMAN.....	231
On the theorem of Gleason and Marsh. By NEAL ZIERLER.....	236
Restricted set-theoretical definitions in arithmetic. By R. M. ROBINSON	238
On polynomial approximation with deviations in prescribed ratios. By ABRAHAM SPITZBART and NATHANIEL MACON.....	243
Factoring a lattice. By A. D. WALLACE.....	250
The convex hull of sub-permutation matrices. By N. S. MENDELSON and A. L. DULMAGE.....	253
A remark on finite groups. By I. N. HERSTEIN.....	255
Finite monadic algebras. By HYMAN BASS.....	258
On harmonic mappings. By J. C. C. NITSCHKE.....	268
Liouville's theorem for parabolic equations of the second order with constant coefficients. By AVNER FRIEDMAN.....	272
On the divergence of Fourier series. By R. P. GOSSELIN.....	278
A problem of Richard Bellman. By TOMLINSON FORT.....	282
Linear difference and differential equations satisfying conditions at more than one point. By TOMLINSON FORT.....	287
On the nonconvergence of Fourier series. By SULAXANA KUMARI....	293
A theorem on the zeros of entire functions of exponential type. By V. KRISHNAMURTHY.....	300
Van der Pol's expressions for the gamma function. By T. S. NANJUNDIAH.....	305
On a formula of A. C. Dixon. By T. S. NANJUNDIAH.....	308
Preferred optimal strategies. By R. C. BUCK.....	312
Integrability of trigonometric series. By J. M. GONZÁLEZ-FERNÁNDEZ.....	315
Power series having partial sums with zeros in a half-plane. By ALBERT EDREI.....	320
On a theorem by A. E. Taylor. By S. R. FOGUEL.....	325
On the representation of the solution of a class of stochastic differential equations. By RICHARD BELLMAN.....	326
The Bohr spectrum of a bounded function. By H. G. EGGLESTON....	328
The multiplication problem for Dirichlet series. By J. P. TULL.....	332
