ERRATUM TO VOLUME 38

U. N. Singh and K. Mangla, *Operators with their inverses similar to their adjoints*, Proc. Amer. Math. Soc. 38 (1973), 258–260.

Page 258: Introduction, line 10

for 'normaloid' read 'normal'

Key words and phrases, line 2

for 'normaloid' read 'normal'.

Page 259: line 1

for 'Hilbert' read 'Banach'

lines 7 and 9 from below

for 'normaloid' read 'normal'

Remark. The authors thank Professor De Prima who brought the slips occurring in the above paper to their notice much before they had received the copy of Proc. Amer. Math. Soc., April, 1973. He has also written a paper giving some interesting results along the lines of Corollary 3 (with the word normaloid instead of normal) of the paper cited above.
