ERRATUM TO “WEIGHTED COMPOSITION OPERATOR ON THE FOCK SPACE”

SEI-ICHIRO UEKI

(Communicated by Joseph A. Ball)

In [1], Ž. Čučković and R. Zhao have studied the weighted composition operator on the weighted Bergman space in the unit disk. They characterized the boundedness and the compactness of this type operator in terms of the generalized Berezin transform. In our paper [2], we get analogous results for the Fock space.
