

Errata to “An Introduction to Morse Theory”

Yukio Matsumoto

January 31, 2022

p.24, line 6: $f(c_0) = p_0 \Rightarrow f(p_0) = c_0$

p.54, 1st line of equation (2.57): $(a_1m_1 + \cdots + a_mx_m)$

$\Rightarrow (a_1x_1 + \cdots + a_mx_m)$

p.95, equation (3.58): $\sum_{i=0}^m c_i \Rightarrow \sum_{i=1}^m c_i$

p.103, 12th line from the bottom: for any $m \times m$ unitary matrix U'

\Rightarrow for any $m \times m$ special unitary matrix U'

p.118, line 15:

Threfore \Rightarrow Therefore

p.125, 1st line:

that contain two consecutive

\Rightarrow that contains two consecutive

p.164, 10th line from the bottom: If M is an orientable closed m -manifold

\Rightarrow If M is an oriented connected closed m -manifold
