Participants in Women in Numbers 3, AWM, April 20–25, 2014.

AWM ADVANCE Grant for Research Networks for Women

The Association for Women in Mathematics (AWM) has received a five-year, US\$750,000 ADVANCE grant for research networks for women in mathematics. Workshops at the annual Joint Mathematics Meetings and SIAM Meetings will bring together women from one of the Research Collaboration Networks to showcase their work and encourage continued collaboration and mentoring. AWM will also organize biennial Research Symposia, with high-profile plenary speakers and special sessions in research areas linked to the Research Collaboration Networks. Proposals for new Research Networks for Women may be submitted to Magnhild Lien by July 1. For more information see awmadvance.org.

Most Research Collaboration Networks for Women conferences so far have taken place at Banff International Research Station.

Call for Nominations for Clifford Prize

The W. K. Clifford Prize is an international scientific prize for young researchers which aims to encourage them to compete for excellence in theoretical and applied Clifford algebras, their analysis and geometry. The deadline for nominations is **September 30, 2016**. Nominations should be sent to secretary@wkcliffordprize.org. For details see www.wkcliffordprize.org.

Ghent University

NSF Postdoctoral Research Fellowships

The National Science Foundation (NSF) awards Mathematical Sciences Postdoctoral Research Fellowships (MSPRF) in areas of the mathematical sciences, including applications to other disciplines. Awards are either Research Fellowships or Instructorships. The Research Fellowship provides full-time support for any eighteen academic-year months in a three-year period. The Research Instructorship provides either two academic years of full-time support or one academic year of full-time and two academic years of half-time support. The deadline for proposals is **October 19, 2016**. See www.nsf.gov/funding/pgm_summ.jsp?pims_id=5301&org=NSF.

Research Training Groups in the Mathematical Sciences

The National Science Foundation (NSF) Research Training Groups in the Mathematical Sciences (RTG) program provides funds for the training of US students and postdoctoral researchers. The deadline for full proposals is **June 7, 2016**. See www.nsf.gov/funding/pgm_summ.jsp?pims_id=5732.

International Mathematics Competition for University Students

The Twenty-Third International Mathematics Competition for University Students will be July 25–31, 2016, at American University in Blagoevgrad, Bulgaria. Students completing their first, second, third, or fourth years of university education are eligible. See www.imc-math.org.uk.

—John Jayne, University College London

EXTRAORDINARY WORK

Inside our walls you'll find the most extraordinary people doing the most extraordinary work. It's not just finite field theory, discrete mathematics, algorithm analysis, or the opportunity to work for the country's largest employer of mathematicians.

It's all of these and more – rolled up into an organization that's dedicated to an extraordinary cause – the safety and security of the United States of America.

U.S. citizenship is required for all applicants. NSA is an Equal Opportunity Employer and abides by applicable employment laws and regulations. All applicants for employment are considered without regard to age, color, disability, genetic information, national origin, race, religion, sex, sexual orientation, marital status, or status as a parent.
