CALIFORNIA

Arthur J. Krener Assistant Professor Positions in Mathematics

The Department of Mathematics at the University of California, Davis is soliciting applications for one or more Arthur J. Krener Assistant Professor positions starting July 1, 2018.

The Department seeks applicants with excellent research potential in areas of faculty interest and effective teaching skills. Applicants are required to have completed their PhD by the time of their appointment, but no earlier than July 1, 2014. The annual salary is \$64,000. The teaching load is 3 to 4 quarter-long courses. Krener appointments are renewable for a total of up to three years, upon demonstration of satisfactory performance in research and teaching.

Additional information about the Department may be found at www.math.ucdavis.edu/.

Applications will be accepted until the position is filled. To guarantee full consideration, the application should be received by November 30, 2017. To apply:

submit the AMS Cover Sheet and supporting documentation electronically through www.mathjobs.org/.

The University of California, Davis, is an affirmative action/equal opportunity employer with a strong institutional commitment to the achievement of diversity among its faculty and staff.

00032

Faculty Position in Mathematics University of California, Davis

The Department of Mathematics at the University of California, Davis invites applications for an Assistant Professor (tenure-track) faculty position starting July 1, 2018.

Minimum qualifications for the position include a PhD degree or its equivalent in the Mathematical Sciences or a related field and demonstrated potential for performance in teaching and research. Duties include mathematical research, undergraduate and graduate teaching,

and departmental, university and professional service.

Additional information about the Department may be found at www.math.ucdavis.edu/.

Applications will be accepted until the position is filled. For full consideration, completed applications should be received by November 30, 2017. To apply: submit the AMS Cover Sheet and supporting documentation electronically through www.mathjobs.org/.

The University of California, Davis, is an affirmative action/equal opportunity employer with a strong institutional commitment to the achievement of diversity among its faculty and staff.

Mathematical Sciences Research Institute (MSRI) Berkeley, CA

Director of Advancement & External Relations

Oppenheim Associates is assisting MSRI in the search for a new Director for Advancement & External Relations. The

Suggested uses for classified advertising are positions available, books or lecture notes for sale, books being sought, exchange or rental of houses, and typing services. The publisher reserves the right to reject any advertising not in keeping with the publication's standards. Acceptance shall not be construed as approval of the accuracy or the legality of any advertising.

The 2017 rate is \$3.50 per word with a minimum two-line headline. No discounts for multiple ads or the same ad in consecutive issues. For an additional \$10 charge, announcements can be placed anonymously. Correspondence will be forwarded.

Advertisements in the "Positions Available" classified section will be set with a minimum one-line headline, consisting of the institution name above body copy, unless additional headline copy is specified by the advertiser. Headlines will be centered in boldface at no extra charge. Ads will appear in the language in which they are submitted.

There are no member discounts for classified ads. Dictation over the telephone will not be accepted for classified ads.

Upcoming deadlines for classified advertising are as follows: December 2017—September 28, 2017; January 2018—October 31, 2017; February 2018—November 23, 2017; March 2018—January 2, 2018; April 2018—January 30, 2018; May 2018—March 2, 2018.

US laws prohibit discrimination in employment on the basis of color, age, sex, race, religion, or national origin. "Positions Available" advertisements from institutions outside the US cannot be published unless they are accompanied by a statement that the institution does not discriminate on these grounds whether or not it is subject to US laws. Details and specific wording may be found on page 1373 (vol. 44).

Situations wanted advertisements from involuntarily unemployed mathematicians are accepted under certain conditions for free publication. Call toll-free 800-321-4AMS (321-4267) in the US and Canada or 401-455-4084 worldwide for further information.

Submission: Promotions Department, AMS, P.O. Box 6248, Providence, Rhode Island 02904; or via fax: 401-331-3842; or send email to classads@ams.org. AMS location for express delivery packages is 201 Charles Street, Providence, Rhode Island 02904. Advertisers will be billed upon publication.

organization seeks a proven fundraising professional to shape significant endowment campaigns, drive annual contributed revenue, and engage new donors from various fields of endeavor who will support fresh research into mathematics. For more information please review the complete Position Description at: www.moppenheim.com/wp-content/uploads/MSRI-Director-for-Advancement-position-description-Final.pdf.

MSRI is the world's preeminent center for collaborative research in mathematics, and advances research into the key unsolved mathematical problems that underlie core mathematics and applications in the physical sciences, economics, engineering, computing, communications, statistical analysis and the global financial system. The prime objective for this position is to develop strategies and campaigns that:

- Develop a 5 year campaign to add \$27m to the current MSRI endowment of \$23m, and then a second campaign to add another \$50m to the endowment by 2030 for a total endowment of \$100 million.
- Deliver Annual Fund Contributions of \$4.5m by 2020 (up from about \$3.5m in 2017).
- Diversifies and Broadens Donor Support for MSRI through use of conventional and social media marketing that communicates MSRI's relevance to donors of different sectors (tech, finance, economics, medicine, etc.).

Founded in 1982 and located in Berkeley, MSRI has a 2017 budget of \$9.9 million, a staff of 21, and a Board of 33. The Advancement Team includes the Executive Director, an Associate Director, admin support, and subcontractors including but not limited to web development, videography, and design of communications materials.

For additional information or to apply, please contact Mark Oppenheim or Patrick Salazar at info@moppenheim.com.

More information can be found on the MSRI website and on Numberphile, an MSRI-supported YouTube channel with short and entertaining videos on mathematics.

00039

University of California, Los Angeles Department of Mathematics Faculty Positions 2018-19

Tenured/Tenure-Track positions 2018-19 (subject to administrative approval)

The Department of Mathematics at the University of California, Los Angeles, invites applications for tenure-track or tenured faculty positions starting July 1, 2018. Outstanding candidates in all areas of mathematics may be considered.

Applicants must possess a PhD and should have outstanding accomplishments in both research and teaching. Duties include mathematical research,

undergraduate and graduate teaching, and departmental and university service. Level of appointment will be based on qualifications, with appropriate salary per UC pay scales.

As a campus with a diverse student body, we encourage applications from women, minorities, and individuals with a history of mentoring under-represented minorities in the sciences. The Department of Mathematics welcomes candidates whose experience in teaching, research, or community service has prepared them to contribute to our commitment to diversity and excellence.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status. For the complete University of California nondiscrimination and affirmative action policy see: UC Nondiscrimination and Affirmative Action Policy ([policy.ucop.edu/doc/4000376/Nondiscriminatio](http://policy.ucop.edu/doc/4000376/NondiscriminationAndAffirmAct)nAndAffirmAct).

The University of California asks that applicants complete the Equal Opportunity Employer survey for Letters and Science at the following URL: cis.ucla.edu/facultysurvey/. Under Federal Law, the University of California may employ only individuals who are legally authorized to work in the United States as established by providing documents specified in the Immigration Reform and Control Act of 1986.

Applications and supporting documentation for all positions must be submitted online via www.mathjobs.org.

Applications will be accepted until the position is filled. To guarantee full consideration, the application should be received by November 15, 2017.

Temporary Faculty Positions 2018-19

The Department of Mathematics at the University of California, Los Angeles, invites applications for temporary and visiting appointments in the categories 1-4 below. Depending on the level, candidates must give evidence of potential or demonstrated distinction in scholarship and teaching. Applicants must possess a PhD and should have outstanding accomplishments in both research and teaching. Postdoctoral Positions:

(1) E.R. Hedrick Assistant Professorships: Appointments are for three years. The teaching load is four one-quarter courses per year.

(2) Computational and Applied Mathematics (CAM) Assistant Professorships: Appointments are for three years. The teaching load is normally reduced by research funding to two one-quarter courses per year.

(3) Program in Computing (PIC) Assistant Adjunct Professorships: Applicants for these positions must show very strong promise in teaching and research in an

area related to computing. The teaching load is four one-quarter programming courses each year and one additional course every two years. Initial appointments are for one year and possibly longer, up to a maximum service of four years.

(4) Assistant Adjunct Professorships and Research Postdocs: Appointments are normally for one year, with the possibility of renewal. Strong research and teaching background required. The teaching load for is six one-quarter courses per year.

Appointments will be effective July 1, 2018 or later. Applications will be accepted until all positions are filled. **For fullest consideration, all application materials should be submitted on or before November 15, 2017.**

Applications and supporting documentation must be submitted online via www.mathjobs.org.

All letters of evaluation are subject to UCLA campus policies on confidentiality. Refer potential reviewers to the UCLA statement of confidentiality at www.apo.ucla.edu/policies/the-call/summary-of-procedures/summary-10-statement-of-confidentiality.

Lecturer Positions in Mathematics

The UCLA Department of Mathematics receives on an ongoing basis applications for quarter positions (Fall/Winter/Spring or for Summer Session) for Lecturers to teach undergraduate Mathematics, Financial Actuarial Mathematics, or Math Education courses. Positions are very limited and temporary. Responsibilities include lecturing, conducting office hours, writing and grading exams and supervising teaching assistants. Previous teaching experience at the college level or extensive actuary experience is required and a PhD is preferred. Applications will be accepted until all positions are filled.

Applications and supporting documentation must be submitted online via www.mathjobs.org.

00023

MASSACHUSETTS

Massachusetts Institute of Technology Cambridge, MA

The Mathematics Department at MIT is seeking to fill positions in Pure and Applied Mathematics at the level of Assistant Professor or higher beginning July 2018 (for the 2018–2019 academic year, or as soon thereafter as possible). Appointments are based primarily on exceptional research qualifications. Appointees will be required to fulfill teaching duties and pursue their own research program. PhD in Mathematics or related field required by employment start date.

For more information and to apply, please visit www.mathjobs.org. To receive full consideration, submit applica-

tions by December 1, 2017. MIT is an Equal Opportunity, Affirmative Action Employer.

00027

Massachusetts Institute of Technology Cambridge, MA

The Mathematics Department at MIT is seeking to fill positions in Pure and Applied Mathematics, and Statistics at the level of Instructor beginning July 2018 (for the 2018–2019 academic year). Appointments are based primarily on exceptional research qualifications. Appointees will be expected to fulfill teaching duties and pursue their own research program. PhD in Mathematics or related field required by employment start date.

For more information and to apply, please visit www.mathjobs.org. To receive full consideration, submit applications by December 1, 2017. MIT is an Equal Opportunity, Affirmative Action Employer.

00028

Northeastern University Department of Mathematics Assistant/Associate Professor Tenure-Track Position

The Department of Mathematics at Northeastern University invites applications for a tenure-track position at the Assistant/Associate Professor level in Mathematics to start as early as Fall of 2018.

Appointments will be based on exceptional research contributions in Mathematics combined with a strong commitment and demonstrated success in teaching. Outstanding candidates in all areas of Pure and Applied Mathematics are encouraged to apply and will be seriously considered. Some of the Department goals and strengths are the following:

In Core Mathematics, the Department has developed a strong research program in Geometry, Physics, and Representation Theory, and seeks to build on this center of excellence by hiring in these and in synergistic areas, such as Topology, Combinatorics, Symplectic Geometry, and Geometric Analysis.

In Applied Mathematics, the Department has its focus on the areas of Applied Analysis, Mathematical Physics, Discrete and Computational Mathematics, and Probability and Statistics, and seeks to build excellence in these fields. Applications from those with an interest and ability to connect across units in the university to the advantage of research at the interface of mathematics and other disciplines are a top priority.

Candidates must have a PhD in Mathematics or a related field by the start date, strong record of research, and demonstrated evidence of excellent teaching ability. Qualified candidates should be committed to fostering diverse and inclusive environments as well as to promoting

experiential learning, which are central to a Northeastern University education.

Responsibilities will include teaching undergraduate and graduate courses, mentoring students and conducting an independent research program.

Review of applications will begin immediately. Complete applications received by November 1, 2017 will be guaranteed full consideration. Additional applications will be considered until the position is filled.

To apply, please submit the documentation requested on the mathjobs.org web site. Applicants invited to interviews will be asked to complete a Northeastern University application on the appropriate website.

Northeastern University is an Equal Opportunity, Affirmative Action Educational Institution and Employer, Title IX University. Northeastern University particularly welcomes applications from minorities, women and persons with disabilities. Northeastern University is an E-Verify Employer.

00038

NEBRASKA

University of Nebraska Department of Mathematics

The Department of Mathematics at the University of Nebraska invites applications for the following position:

One Professor of Practice position, at the Assistant Professor Level, to take a leadership role in the Department's first-year mathematics program through calculus. Review of applications will begin December 1, 2017 and continue until a suitable candidate is found.

For more information about this position and information on how to apply for it, please go to: www.math.unl.edu/department/jobs/.

The University of Nebraska-Lincoln is committed to a pluralistic campus community through affirmative action, equal opportunity, work-life balance, and dual careers. See www.unl.edu/equity/notice-nondiscrimination.

00040

PENNSYLVANIA

Penn State University Department of Mathematics

The Department of Mathematics is seeking outstanding applicants for tenure and tenure-track faculty positions in all areas of Mathematics. A PhD is required. Applicants must complete the Penn State application electronically at psu.jobs/job/74379 and must submit an application through Mathjobs.org (www.mathjobs.org/jobs) with the following materials in order for the application to be complete: (1) Curriculum Vitae; (2) at least

three references, one of which should address in detail the candidate's abilities as a teacher; (3) Publication List; (4) Research Statement; and (5) Teaching Statement. We encourage applications from individuals of diverse backgrounds. Review of applicants will begin November 15, 2017 and continue until the position is filled.

CAMPUS SECURITY CRIME STATISTICS: For more about safety at Penn State, and to review the Annual Security Report which contains information about crime statistics and other safety and security matters, please go to www.police.psu.edu/clery/, which will also provide you with detail on how to request a hard copy of the Annual Security Report.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.

00037

Penn State University Eberly Research Fellows

The Eberly College of Science at Penn State University invites nominees for the Eberly Research Fellowship program. Eberly Fellowships are designed to attract exceptional early career scientists to Penn State to enhance their career goals in the vibrant, highly collaborative environment of the Eberly College of Science and the broader STEM community of Penn State University. The Eberly College of Science which includes the Departments of Astronomy & Astrophysics, Biology, Biochemistry & Molecular Biology, Chemistry, Mathematics, Physics, and Statistics, ranks in the top 10 universities in the US and has annual research expenditures exceeding \$100M. Each of the seven departments is expecting to appoint one or more Eberly Fellows. Nominations for early career scientists with exceptional promise in basic research in physics, chemistry, biology, molecular biology, astronomy, mathematics, and statistics and/or applied research in health, energy, materials, or the environment are encouraged. Interdisciplinary as well as traditional disciplinary research is encouraged. Fellows who wish to also gain training and experience in teaching may elect to receive mentored teaching experience. Eberly Fellow advisors must hold their primary appointment in one of the seven departments of the Eberly College of Science. Co-advisors and cross-disciplinary research are also supported.

Eligibility and appointment

Applicants must be a current doctoral student or have received a doctoral degree in science, statistics, or mathematics within the past three years. Current doctoral students must have their doctoral degree prior to the start of their fellowship. Current doctoral students and postdoctoral fellows at Penn State are not eligible. Eberly Research Fellowships

may be held from 1–3 years with annual appointments conditional on satisfactory performance. Fellows will receive a stipend of \$65,000 and \$5,000 per year in discretionary funds, which can be used for travel and other research expenses.

Nomination and applications

Nominations will be accepted from faculty advisors, graduate program chairs, department chairs, or others who can attest to the nominee's potential as a scientist. Nominations should include the nominees CV. Nominations of women and under-represented minorities are strongly encouraged. The nomination deadline is November 15 for appointments beginning 6–12 months later. Nominations should be sent to research-fellows@psu.edu.

The Eberly Research Fellowship Selection Committee will select the nominees who will then be requested to submit their applications by December 1, 2017. Applications will include (1) a biographical sketch – including publications, accepted, and submitted manuscripts, (2) three letters of reference including one from the doctoral advisor, (3) research statement summarizing research accomplishments and research that you intend to pursue at Penn State, (4) names of one or more potential faculty advisors among the faculty in the seven departments of the Eberly College of Science, Penn State University.

CAMPUS SECURITY CRIME STATISTICS: For more about safety at Penn State, and to review the Annual Security Report which contains information about crime statistics and other safety and security matters, please go to www.police.psu.edu/c1ery/, which will also provide you with detail on how to request a hard copy of the Annual Security Report.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.

U.Ed. SCI 18-9

00036

TENNESSEE

Tenure-Track Assistant Professor Position at Vanderbilt University, Nashville, Tennessee

The Department of Mathematics at Vanderbilt University invites applications for a tenure-track position (Assistant Professor) beginning fall 2018. Exceptional candidates from any area of pure or applied mathematics are encouraged to apply, but priority will be given to applicants in or related to one of the research areas of the department.

We are looking for individuals with an outstanding record in research and demonstrated excellence in teaching. A PhD degree is required. Qualified can-

dicates should submit their application materials electronically through the AMS website Mathjobs.org via the link www.mathjobs.org/jobs. Alternatively, application materials may be sent to apply.interfolio.com/43643. These materials should include a cover letter, a curriculum vitae, a publication list, a description of current and planned research, a teaching statement, at least four letters of recommendation, and the AMS Cover Sheet. One of the letters must discuss the applicant's teaching qualifications. Reference letter writers should be asked to submit their letters online through MathJobs.Org or through Interfolio. Evaluation of the applications will commence on November 1, 2017 and continue until the position is filled. For information about the Department of Mathematics at Vanderbilt University, please consult the web at vanderbilt.edu/math/.

Vanderbilt University has a strong institutional commitment to recruiting and retaining an academically and culturally diverse community of faculty. Minorities, women, individuals with disabilities, and members of other underrepresented groups, in particular, are encouraged to apply. Vanderbilt is an Equal Opportunity/Affirmative Action employer.

00035

UTAH

University of Utah College of Science

Biophysics/Neuroscience/Chemical Biology Cluster, University of Utah. The proposed cluster comprises multiple tenure-track faculty positions to establish excellence in emerging interdisciplinary fields; departmental appointments may be in Physics, Biology, Chemistry, Mathematics or Biochemistry. A major goal is to strengthen both Cellular and Molecular Neuroscience and Biophysics, as well as to link Neuroscience to the Chemical Biology of Natural Products. All candidates are expected to demonstrate the ability to develop a vigorous, competitive and well-funded research program and will be evaluated on how their research potentially contributes to the long-term goal of excellence in interdisciplinary bridge areas. Applications by investigators, both experimental and theoretical, interested in macromolecular complexes on membranes are particularly encouraged. An undergraduate track in Neuroscience and Biophysics will be established within the College of Science, and faculty hired through this cluster are expected to participate in the development and teaching of innovative courses related to this initiative. We expect to make two or more faculty appointments in the 2017–2018 academic year, with additional appointments in subsequent years. While the openings are at the Assistant Professor

level, exceptional senior candidates will be considered.

Assistant Professor applicants should upload an application letter with vita, a description of proposed research, and arrange for three letters of recommendation to be sent on their behalf.

Senior applicants should upload an application letter and CV. Applications should be uploaded in PDF format to utah.peopleadmin.com/postings/68311. Initial interview selections will begin as applications are received, but applications submitted at a later date will be considered as needed.

The University of Utah values candidates who have experience working with students from diverse backgrounds and possess a strong commitment to improving access to higher education for historically underrepresented groups. The University of Utah is an equal opportunity/affirmative action employer and educator. Minorities, women, veterans and those with disabilities are strongly encouraged to apply. Veterans' Preference is extended to qualified veterans. Reasonable disability accommodations will be provided with adequate notice. For additional information about the University's commitment to equal opportunity and access, see www.utah.edu/nondiscrimination/.

00034

University of Utah Department of Mathematics

The Department of Mathematics at the University of Utah invites applications for the following positions:

- Full-time tenure-track or tenured appointments at the level of Assistant, Associate, or Full Professor in all areas of mathematics.
- Full-time tenure-track or tenured appointments at the level of Assistant, Associate, or Full Professor in all areas of statistics. These positions are part of a University-wide cluster hiring effort in statistics, with particular emphasis in mathematics, computer science, and bioengineering. Successful candidates will have strong interdisciplinary interests.
- Three-year Burgess, Tucker, and Wylie Assistant Professor Lecturer positions.

Please see our website at www.math.utah.edu/positions for information regarding available positions and application requirements. Applications must be completed through www.mathjobs.org/jobs/Utah. Review of complete applications for tenure-track positions will begin on October 23, 2017, and will continue until the positions are filled. Completed applications for postdoctoral positions received before January 1, 2018, will receive full consideration.

The University of Utah is an Equal Opportunity/Affirmative Action employer and educator. Minorities, women, veterans, and those with disabilities are strongly en-

couraged to apply. Veterans' preference is extended to qualified veterans. Reasonable disability accommodations will be provided with adequate notice. For additional information about the University's commitment to equal opportunity and access see: www.utah.edu/nondiscrimination/.

00029

LEBANON

American University of Beirut (AUB) Faculty positions: Mathematics

The Department of Mathematics at the American University of Beirut (AUB) invites applications for tenure track positions in mathematics at the assistant professor level to begin August 15, 2018.

Only applicants holding a PhD in Mathematics, Statistics or Applied Mathematics and showing a strong commitment to teaching and research will be considered.

All interested applicants should send a letter of application with a current CV, research and teaching statements, and arrange for three letters of reference to be addressed to Dean Nadia El Cheikh and sent through the Mathjobs website at www.mathjobs.org. Alternatively, applications may be sent by e-mail to as_dean@aub.edu.lb. Applicants should indicate whether they are planning to attend the AMS-MAA Joint Mathematics Meetings on January 10-13, 2018 in San Diego, California.

All applications and letters of reference should arrive by November 15, 2017. Applications will continue to be received after the deadline, but may not receive full consideration.

For more information on these positions, please visit www.aub.edu.lb/fas/pages/academic-employment.aspx or the Department's website at www.aub.edu.lb/fas/math.

The American University of Beirut is an Equal Opportunity Employer.

00041

TAIWAN

National Chengchi University Open Faculty Positions (Tenure Track)

The Department of Mathematical Sciences at National Chengchi University in Taipei, Taiwan anticipates openings for several tenure-track faculty positions. The candidate must hold a doctoral degree in (Applied) Mathematics and be able to communicate in Chinese and English. For more information, please visit www.math.nccu.edu.tw/app/news.php?Sn=718.

00015

CO-AUTHOR SOUGHT

Co-author sought to help finalize paper, "A Solution to the $3x + 1$ Problem"

I am seeking a professional mathematician to help me finalize a paper that sets forth a solution to the very difficult, longstanding, problem in number theory known as the $3x + 1$ Problem. So far there have been well over 7,000 visits to the online paper; I have received not one claim of an error. It is reasonable to assume that at least 500 of those visits were by professional mathematicians, because that number is the increase in monthly visits that followed appearances of classified ads like this one in previous issues of the *Notices*.

I am not a professional mathematician (my degree is in computer science, and for many years I have been a researcher in the computer industry), and so I feel a co-author is essential.

The co-author will be expected to check the proof of each lemma, and the two proofs of the $3x + 1$ Conjecture each of which solves the Problem, and to help correct errors, and to offer suggestions for other improvements. He or she will also be expected to make contributions to content that he or she believes will enhance the paper, and, finally, to write to the editor of each journal to which the paper is submitted, stating his or her belief that the proofs are correct.

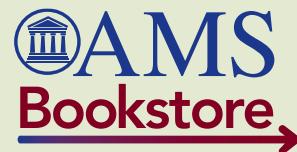

Anyone who is familiar with the Problem knows that very significant prestige will be gained by the co-author of the paper when it is published.

The paper is "A Solution to the $3x + 1$ Problem," on occampress.com.
