SUBSCRIPTION INFORMATION. The 2006 subscription is for Numbers 72 and 73. Beginning in 2004, *Theory of Probability and Mathematical Statistics* is accessible from www.ams.org/journals/. Subscription prices for 2006 are US\$634 list; US\$507 institutional member. Upon request, subscribers to paper delivery of this journal are also entitled to receive electronic delivery. For paper delivery, subscribers outside the United States and India must pay a postage surcharge of US\$6; subscribers in India must pay a postage surcharge of US\$13. Expedited delivery to destinations in North America US\$7; elsewhere US\$19. A late charge of 10% of the subscription price will be imposed upon orders received from nonmembers after January 1 of the subscription year.

BACK NUMBER INFORMATION. For back issues see www.ams.org/bookstore.

Subscriptions and orders should be addressed to American Mathematical Society, P.O. Box 845904, Boston, MA 02284-5904, USA. *All orders must be accompanied by payment.* Other correspondence should be addressed to 201 Charles Street, Providence, RI 02904-2294, USA.

COPYING AND REPRINTING. Material in this journal may be reproduced by any means for educational and scientific purposes without fee or permission with the exception of reproduction by services that collect fees for delivery of documents and provided that the customary acknowledgment of the source is given. This consent does not extend to other kinds of copying for general distribution, for advertising or promotional purposes, or for resale. Requests for permission for commercial use of material should be addressed to the Acquisitions Department, American Mathematical Society, 201 Charles Street, Providence, Rhode Island 02904-2294, USA. Requests can also be made by e-mail to reprint-permission@ams.org.

Theory of Probability and Mathematical Statistics is published by the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA and is mailed from Providence, Rhode Island. Postmaster: Send address changes to Theory of Probability and Mathematical Statistics, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA.

CONTENTS

Louiza Bouallouche and Djamil Aïssani, Measurement and performance of the strong stability method	1
V. V. Buldygin, O. I. Klesov, and J. G. Steinebach, PRV property of functions and the asymptotic behaviour of solutions of stochastic differential equations	11
O. K. Zakusylo and N. P. Lysak, On a queueing system with sequential service	27
O. V. Ivanov and I. V. Orlovskii, The asymptotic normality of the Koenker–Bassett estimators in nonlinear regression models	33
H. Jönsson, A. G. Kukush, and D. S. Silvestrov, Threshold structure of optimal stopping strategies for American type option. II	47
M. V. Kartashov, The ergodicity and stability of quasi-homogeneous Markov semigroups of operators	59
V. O. Koval', Bounded law of the iterated logarithm for sums of independent random vectors normalized by matrices	69
A. M. Kulik, Malliavin calculus for Lévy processes with arbitrary Lévy measures	75
I. K. Matsak, Some remarks on the ordinal strong law of large numbers	93
Yulia Mishura, An estimate of ruin probabilities for long range dependence models	103
A. Ya. Olenko, An estimate of the mean square error of interpolation of stochastic processes	113
D. I. Pohyl'ko, Histogram estimators of the shape of the concentration function in a two-component mixture	125
S. V. Posashkov, Optimal filtration for systems with fractional Brownian noises	135
A. Yu. Ryzhov, A test of the hypothesis about the homogeneity of components of a mixture with varying concentrations by using censored data	145
O. V. Sugakova, Classification of components of a mixture	157
Georgii Shevchenko, Euler approximations of anticipating quasilinear stochastic differential equations	167
A. P. Yurachkivskii and D. O. Ivanenko, Estimation of a matrix-valued parameter of an autoregressive process with nonstationary noise	177
M. I. Yadrenko and N. Semenov'ska, The problem of estimation of unknown mean value for some correlation models of homogeneous and isotropic random fields	193

UKRAINIAN CONTENTS*

<i>Louiza Bouallouche, Djamil Aïssani</i> Measurement and performance of the strong stability method	1
<i>В. В. Булдигін, О. І. Клесов, Й. Г. Штайнебах</i> PRV властивість функцій та асимптотична поведінка розв'язків стохастичних диференціальних рівнянь	10
<i>О. К. Закусило, Н. П. Лисак</i> Про одну систему масового обслуговування з послідовним обслуговуванням	24
<i>О. В. Іванов, І. В. Орловський</i> Асимптотична нормальність оцінок Коенкера–Бассета у нелінійних моделях регресії	30
<i>Н. Jönsson, A. G. Kukush, D. S. Silvestrov</i> Threshold Structure of optimal stopping strategies for American type option. II	42
<i>М. В. Карташов</i> Ергодичність та стійкість квазі-однорідних марковських напівгруп операторів	54
<i>В. О. Коваль</i> Обмежений закон повторного логарифма для матрично-нормованих сум незалежних випадкових векторів	63
<i>О. М. Кулик</i> Числення Маллявена для процесів Леві з довільними мірами Леві	67
<i>І. К. Мацак</i> Зауваження до порядкового закону великих чисел	84
<i>Юлія Мішура</i> Оцінка ймовірностей банкрутства для моделей з довгостроковою залежністю	93
<i>А. Я. Оленко</i> Оцінка середньоквадратичної помилки інтерполяції випадкових процесів	101
<i>Д. І. Похилько</i> Гістограмні оцінки форми функції концентрації двокомпонентної суміші	111
<i>С. В. Посашков</i> Оптимальна фільтрація у системах з дробово-броунівськими шумами	120
<i>А. Ю. Рижов</i> Перевірка гіпотези про однорідність компонент суміші зі змінними концентраціями за цензурованими даними	129

*The American Mathematical Society scheme for transliteration of Cyrillic may be found at the end of index issues of *Mathematical Reviews*.

<i>О. В. Сугакова</i>		
Розпізнавання компонентів суміші		140
<i>Георгій Шевченко</i>		
Про Ейлерові апроксимації квазілінійних стохастичних диференціальних рівнянь з упередженням		150
<i>А. П. Юрачківський, Д. О. Іваненко</i>		
Оцінювання матричного параметра процесу авторегресії з нестационарним шумом		158
<i>М. Й. Ядренко, Н. Семеновська</i>		
Задача оцінювання невідомого середнього значення для деяких кореляційних моделей однорідних та ізотропних випадкових полів		172
